Exhibit ASTANDARD AGREEMENT

SCOPE OF WORK

The Department of Pesticide Regulation's (DPR) mission is to protect human health and the environment by regulating pesticide sales and use, and by fostering reduced-risk pest management which is mandated under the California Food and Agricultural Code section 11501 sets forth the general purposes of the legal code that fundamentally authorizes the State's pesticide regulatory program:

- To provide for the proper, safe, and efficient use of pesticides essential for production of food and fiber and for protection of the public health and safety.
- To protect the environment from environmentally harmful pesticides by prohibiting, regulating, or ensuring proper stewardship of those pesticides.
- To assure agricultural and pest control workers of safe working conditions where pesticides are present.
- To permit agricultural pest control by competent and responsible licensees and permittees under strict control of the Department of Pesticide Regulation and the County Agricultural Commissioners.
- To assure consumers and users that pesticides are properly labeled and appropriate for the
 use designated by the label and that state or local governmental dissemination of information
 on pesticidal uses of any registered pesticide product is consistent with the uses for which the
 product is registered.
- To encourage the development and implementation of pest management systems, stressing
 application of biological and cultural pest control techniques with selective pesticides when
 necessary to achieve acceptable levels of control with the least possible harm to the public
 health, nontarget organisms, and the environment.

Pesticide use reporting is an ongoing program to collect and process data on full use reporting of agricultural and structural pesticide applications, per the Food Safety Act of 1989 (Chapter 1200, AB 2161). Under full use reporting, certain agricultural pesticide uses are required to be reported to the county agricultural commissioner (CAC), who, in turn, reports the data to DPR. DPR also collects reports from structural pest control businesses for pesticide use in schools. Full use reports include the amount and name of the pesticide applied, date and location (section, township, range) of the application, and, if the application was agricultural, the crop. The primary exceptions to the use reporting requirements are home and garden use, and most industrial and institutional use. The pesticide use reports are compiled by DPR and made available on disc and on DPR's Web site. DPR also provides support to the CACs on their administration of the computer systems and applications for the Restricted Material Permit Program, which is used to manage, track, and collect data for permits, operator identifications, and pesticide use reports.

- 1. This Contract Agreement is entered into by and between the Department of Pesticide Regulation (DPR) and Santa Barbara County (Contractor), 263 Camino Del Remedio, Santa Barbara, CA 93110-1335.
- 2. The Contractor shall provide electronic submittal of pesticide use report records and shall provide data to DPR via electronic mail or the Internet, which shall meet the criteria outlined in paragraph 5 of this Exhibit.

- C. The Contractor shall submit, in arrears, not more frequently than monthly or less than quarterly, an invoice to DPR for costs incurred pursuant to this Agreement. Payments will be made in arrears upon receipt and approval of invoice as stated below. If it is noted that a county is deficient in sending the PUR data, payment will be withheld until receipt of said data.
- D. Each invoice shall contain the following information:

- F. DPR agrees to make payment as promptly as fiscal procedures permit, upon receipt of the invoice(s), subject to approval by the DPR Contract Manager, and contingent upon satisfactory completion of the terms of this agreement.
- G. "Satisfactory completion" as used in this Agreement means that the Contractor has complied with all terms, conditions and performance requirements of this Agreement.

2. Budget Contingency Clause

A. It is mutually agreed that if the Budget Act of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the program,

Exhibit BSTANDARD AGREEMENT

this Agreement shall be of no further force and effect. In this event, the State shall have no liability to pay any funds whatsoever to the Contractor or to furnish any other considerations under this Agreement and the Contractor shall not be obligated to perform any provisions of this agreement.

- B. This Agreement is valid and enforceable only if sufficient funds are made available to the State by the United States Government or the California State Legislature for the current year and/or any subsequent years covered under this Agreement. In addition, this Agreement is subject to any additional restrictions, limitations, or conditions enacted by the Congress or any statute enacted by the Congress or the California State Legislature which may affect the provisions, terms or funding of this Agreement in any manner.
- C. If funding for any fiscal year is reduced or deleted by the Budget Act for purposes of this program, the State shall have the option to either cancel this Agreement with no liability occurring to the State, or offer an Agreement amendment to the Contractor to reflect the reduced amount.

3. Prompt Payment Clause

Payment will be made in accordance with, and within the time specified in, Government Code Chapter 4.5, commencing with Section 927.

4. Budget and Rates

- A. The total amount of the Agreement shall not exceed \$60,844.00. - B. The Contractor shall not receive additional compensation for reimbursement or for costs not identified in this Agreement and shall not decrease the work to compensate therefore.

5. Cost Limitation
