Subject: GALILEO PISA

Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

First I want to point out that your 36 foot height is 10 feet above the grade, so the height. is 46 feet. Nothing it the vicinity comes close

Secondly we of the "surrounding area" sent 160 letters and emails which, I don't know maybe the committee could of commented on one of them. No public hearing!

Corruption 101

Third This is not the Golita community property it's the county of Santa Barbara. We can't vote in Goleta elections. This project would never get out of committee.

Forth there is a fire house opposite the entrance to the PISA. As it is; there are times when the traffic creates a jam where Fire Trucks are gridlocked. You want bet traffic increases every year.

Fifth there are tanks leaching petroleum that no doubt have polluted the soil. Judy has no idea where the leaching has landed. I live across the street and I have grandchildren. Is the site on the federal clean up list?

Sixth The noise and the traffic from sixty more cars. We live along the 101 so did anyone do air quality projection. This is being pushed through.

Seventh We all know who is going to rent these apartments Students, lots of turnover generating lots of in your face greed. That's why there are so many bike "as in motorcycle" spaces How many to a room.?

Eighth just down the block is Maraville a home for seniors most elderly. Now that's a nicely designed. Calle Real and Paterson is a complex intersection. We have accidents all the time. Are you prepared to accept responsibility for the injured or god forbid a fatality. Sure it's up to traffic Ask a few cops how 114 vehicles will affect the intersection of Calle Real and Patterson Ave?

Nine We moved into a house based on the neighborhood You the guys who get elected to decide on who benefits and who jumps in to wreck what was peace

Ten this place is such a hideous blot on our peaceful neighborhood. When the quality of life degenerates who wins?

Even the design is wrong for beauty that is Santa Barbara
