**Subject:** Anti-Fracking Law

To Whom It May Concern,

I Evan Elder would like to formally object to the new "Anti-Fracking" law trying to be passed. First, we do not frack and most likely will not frack in this county. If passed this law would cost thousands of people their jobs & millions of dollars in tax revenue. Also, if such law was passed, the County of Santa Barbara will most likely face multiple lawsuits at the taxpayers' expense. I believe that money would be better spent on education/roads/ect. Please consider our economy and peoples livelihoods when making a decision tomorrow.

Thanks for your time,

**Evan Elder**
