Dear Supervisors,

We are writing to strongly support the overnight parking restrictions on Wallace Avenue (1st District). We have been residents living on Finney Street for the last six years and have regularly witnessed questionable and concerning overnight cars, motor homes, campers, trucks parked for extended periods of times, sometimes days into weeks and months which people are using as residences or as meeting places for suspicious activities or which have been abandoned. There is a camper parked on Wallace Avenue now which displays a hand written license plate. We regularly pick up trash discarded along Wallace Avenue mostly consisting of discarded alcohol bottles, sundry trash, including hypodermic needles, face masks, hygiene articles and other undesirable items. We have felt at times uneasy walking along Wallace Avenue at night. We would be very grateful to deter people from having the option to park overnight for safety and security reasons. The daytime parking places planned on Wallace Avenue will serve people visiting the beach and the business district of Summerland well without inviting different elements via overnight parking options which would become a concern to all residents living on both sides of Finney Street and the Union Pacific Railroad. We also support a "no overnight parking" restriction to be applied to the North side of Wallace Avenue for the aforementioned reasons. We have been privy to what happens when no restrictions are in place. Thank you sincerely for your considerations of our request.

All the Best,

Nora McNeely Hurley and Michael Hurley
2350 Finney Street
