This is primarily a question for Dr. Ansorg and Dr. De Reynoso. How is it that Covid cannot be trasmitted when one is sitting down or eating and drinking?

I was in line at Starbucks yesterday. I am forced to wear a useless cloth face covering into the establishment and only 2 feet away the entire Starbucks was packed with customers all laughing drinking having a good time with no face coverings on whatsoever. I notice that is happening everywhere I go to eat.

This is showing that these erroneous mandates are not based on science but rather on control. The public is growing tired and is losing all confidence in your guidance. We are starting to see more and more people push back.

It is time to remove all mandates and end the state of emergency in Santa Barbara County.

Sincerely,  
Alexandra Freeman  
Goleta resident
