Subject: No to the coastal comission

As a 40 year resident of Santa Barbara, and a 25 year resident of Hope Ranch, I urge you to say no to the Coastal Commission program that would impose upon the County significant changes to the Coastal Zoning Ordinance that controls land use in Hope Ranch and other coastal areas. I am an active member of many equestrian, educational, and environmental groups and want to preserve our heritage. I hope you will protect the best interest of the coast and its citizens. As a local teacher for 20 years, I chose to live in this unique coastal environment.. SB County has done an excellent job of protecting our coastal lands and should not allow the state to change the rules. Your planning and development department for years has been under the scrutiny of the Grand Jury and has difficulty in implementing existing ordinances. Now is not the time to make sweeping changes that may have an economic effect to the landowners, the county tax base, and for you in having to implement these changes. I have been a supporter of yours and I hope I can count on you to be thoughtful as you consider this proposal.

Sincerely yours,

Jane Lodas
