**Reasons to support exemption findings (attach additional material, if necessary):**

The Santa Barbara County Board of Supervisors is the responsible agency regarding the acceptance of a public utility easement for a project that was previously approved under CEQA by the Santa Barbara County Zoning Administrator. The Board's acceptance of the easement is not a project by definition. The term project refers to the activity which is being approved (the Parcel Map) and which may be subject to several discretionary approvals by governmental agencies. The term "project" refers to the activity which is being approved and which may be subject to several discretionary approvals by governmental agencies; it does not mean each separate governmental approval. Further, acceptance of the easement will not create any unusual circumstances which would create a possibility that there would be a significant effect.
