**I. Personnel Controls**

- A. *Workforce Members Training and Confidentiality.*** Before being allowed access to CDPH PCI, all Contractor's workforce members who will be granted access to CDPH PCI must be trained in their security and privacy roles and responsibilities at Contractor's expense and must sign a confidentiality and acceptable CDPH PCI use statement. Training must be on an annual basis. Acknowledgments of completed training and confidentiality statements, which have been signed and dated by workforce members must be retained by the Contractor for a period of three (3) years following contract termination. Contractor shall provide the acknowledgements within five (5) business days to CDPH if so requested.

- C. *Workforce Member Assessment.*** Before being permitted access to CDPH PCI, Contractor must assure there is no indication workforce member may present a risk to the security or integrity of CDPH PCI. Contractor shall retain the workforce member's assessment documentation for a period of three (3) years following contract termination.

**II. Technical Security Controls**

- A. *Encryption.*** All desktop computers, mobile computing devices, and portable electronic storage media that processes or stores CDPH PCI must be encrypted using a FIPS 140-2 certified 128 bit or higher algorithm. The encryption solution must be full disk unless approved by the CDPH Information Security Office (ISO) and Privacy Office (PO). FIPS 140-2 certified 128 bit or higher algorithm end-to-end, individual file encryption, or ISO approved compensating security controls, shall be used to protect CDPH PCI transmitted or accessed outside the Contractor's secure internal network (e.g., email, remote access, file transfer, internet/website communication tools).
- B. *Server Security.*** Servers containing unencrypted CDPH PCI must have sufficient local and network perimeter administrative, physical, and technical controls in place to protect the CDPH information asset, based upon a current risk assessment/system security review.
- C. *Minimum Necessary.*** Only the minimum amount of CDPH PCI required to complete an authorized task or workflow may be copied, downloaded, or exported to any individual device.
- D. *Antivirus software.*** Contractor shall employ automatically updated malicious code protection mechanisms (anti-malware programs or other physical or software-based solutions) at its network perimeter and at workstations, servers, or mobile computing devices to continuously monitor and take actions against system or device attacks, anomalies, and suspicious or inappropriate activities.
- E. *Patch Management.*** All devices that process or store CDPH PCI must have a documented patch management process. Vulnerability patching for Common Vulnerability Scoring System (CVSS) "Critical" severity ratings (CVSS 9.0 – 10.0) shall be completed within forty-eight (48) hours of

**Information Privacy and Security Requirements**  
**(For CDPH WIC Contracts)**

publication or availability of [WIC] vendor supplied patch; “High” severity rated (CVSS 7.0- 8.9) shall be completed within seven (7) calendar days of publication or availability of vendor supplied patch; all other vulnerability ratings (CVSS 0.1 – 6.9) shall be completed within thirty (30) days of publication or availability of vendor supplied patch, unless prior ISO and PO variance approval is granted.

- F. *User Identification and Access Control.*** All Contractor workforce members must have a unique local and/or network user identification (ID) to access CDPH PCI. The unique ID may be passwords, physical authenticators, or biometrics, or in the case of multi-factor authentication, some combination thereof. Should a workforce member no longer be authorized to access CDPH PCI, or an ID has been compromised, that ID shall be promptly disabled or deleted. User ID’s must integrate with user role-based access controls to ensure that individual access to CDPH PCI is commensurate with job-related responsibilities.
- G. *CDPH PCI Destruction.*** When no longer required for business needs or legal retention periods, all electronic and physical media holding CDPH PCI must be purged from Contractor’s systems and facilities using the appropriate guidelines for each media type as described in the prevailing “National Institute of Standards and Technology – Special Publication 800-88” – “Media Sanitization Decision Matrix.”
- H. *System Inactivity Timeout.*** Contractor’s computing devices holding, or processing CDPH PCI must be configured to automatically log-off an authenticated user or lock the device in a manner where the user must reauthenticate the user session after no more than twenty (20) minutes of user inactivity.
- I. *Warning Banners.*** During a user log-on process, all systems providing access to CDPH PCI, must display a warning banner stating that the CDPH PCI is confidential, system and user activities are logged, and system and CDPH PCI use is for authorized business purposes only. User must be directed to log-off the system if they do not agree with these conditions.
- J. *System Logging.*** Contractor shall ensure the information systems and devices that hold or process CDPH PCI are capable of being audited and the events necessary to reconstruct transactions and support after-the-fact investigations are maintained. This includes the auditing necessary to cover related events, such as the various steps in distributed, transaction-based processes and actions in service-oriented architectures. Audit trail information with CDPH PCI must be stored with read-only permissions and be archived for three (3) years after event occurrence. There must also be a documented and routine procedure in place to review system logs for unauthorized access.
- K. *Intrusion Detection.*** All Contractor systems and devices holding, processing, or transporting CDPH PCI that interact with untrusted devices or systems via the Contractor intranet and/or the internet must be protected by a monitored comprehensive intrusion detection system and/or intrusion prevention system.

### **III. Audit Controls**

- A. *System Security Review.*** Contractor, to assure that administrative, physical, and technical controls are functioning effectively and providing adequate levels of protection for CDPH PCI, shall conduct at least, an annual administrative assessment of risk, including the likelihood and magnitude of harm from the unauthorized access, use, disclosure, disruption, modification, or

**Exhibit G**  
**Information Privacy and Security Requirements**
