SCOPE OF WORK

Initial Inspections:

In the best interest of the State, in accordance with California Business and Professions Code (BPC) Section 13434, and under the authority of the Secretary of the Department of Food and Agriculture (CDFA); the Division of Measurement Standards (Division) and the County of SANTA BARBARA (County) agree to the following:

An initial inspection is the first inspection in the fiscal year of a location where the *primary* business is selling petroleum products (E.G., retail service stations, distributors of engine fuels, oils, quick-lube shops.).

An initial inspection shall include the verification of compliance with the appropriate provisions of the Business and Professions Code and California Code of Regulations relating to the advertising and labeling of petroleum and automotive products, and to verify compliance with the provisions of BPC Section 13660 at the location. Inspection reports shall be made for each establishment inspected on Petroleum Inspection Report forms supplied by or approved by the Division containing legible heading and violation information. The original inspection report shall be maintained at said County Office of Weights and Measures for four (4) years and be made available to the Department of Food and Agriculture, Division of Measurement Standards, upon request.

The Department will pay said County \$75.00 for each initial inspection of establishments selling or distributing petroleum and/or automotive products, provided the inspection is done to determine compliance with BPC Chapters 14, 14.5 and 15. The total allocation to said County for these inspections shall not exceed \$6,375.00 for this Agreement. This represents 85 initial inspections per fiscal year.

Inspection Requirements

The assigned number of inspections at brake shops, quick-lube shops, and other retail establishments selling bulk petroleum products or automotive products shall not exceed 10% of the total annual initial inspections authorized. The Division reserves the right to, at its discretion, assign and direct the County to take designated samples of bulk automotive or petroleum products for the purpose of conducting marketplace surveys and initial inspections at specific stations. The locations visited for the purpose of obtaining these designated samples shall be counted as inspections authorized by this Agreement and will be paid up to \$75.00 per location. Prior to being assigned sampling duties, the Division will provide training in the proper sampling and sample tag/chain of evidence completion procedures. Unless otherwise directed, all samples are to be submitted to the Division's laboratory in Sacramento.

Sample containers and color-coded subvention sample identification tags will be provided by the Division. Payment for samples and transportation of the sample to the Division's laboratory shall be the responsibility of said County. The color-coded

subvention sample identification tags must be used on all subvention samples to identify them for reimbursement verification. Said County will use the inspection and sampling procedures outlined in the Division of Measurement Standards' "Petroleum Products Inspection and Sampling Procedure Manual." Off sale of samples not meeting product specifications shall be the responsibility of the County, or the Division if requested to do so by the County, and will be handled in accordance with the guidelines established in the Division's "Citation Procedure Manual." Current versions of the "Petroleum Products Inspection and Sampling Procedure Manual" and the "Citation Procedure Manual" are available on the Division's website at <http://www.cdffa.ca.gov/dms/>.

Nothing in this Agreement prevents or precludes Division staff from performing routine location inspections within the County. The County will be notified when Division staff is performing location inspections within the County. The Division also reserves the right to re-inspect locations that were inspected and billed for by the County. These re-inspections are for the purpose of evaluating the work of the County. Enforcement action, if needed, will be taken by Division staff following the "Citation Procedure Manual" guidelines.

As per BPC Section 12015, said County agrees that appropriate enforcement action shall be taken upon discovery of violation(s) at the location being inspected. The enforcement actions will be handled in accordance with the guidelines established in the Division's "Citation Procedure Manual." If the appropriate enforcement action is more than the issuance of a Notice of Violation (NOV), and if the County is unable or fails to take that action against the violator, the Division shall take the specified enforcement action and payment for the inspection will be withheld.

All requests for payment shall be made using the Petroleum Agreement Invoice, supplied, and shall include the official County letterhead.

Funds will be disbursed to the County on approval of the quarterly invoice submitted. Included with the invoice shall be a list stating the total number of initial inspections conducted, the name and address of the location inspected, the number of designated samples taken, the name and location where the samples were taken, and the amount of money requested.

The invoice for billing shall be submitted to the Division of Measurement Standards, 6790 Florin Perkins Road, Suite 100, Sacramento, 95828.

Completed legible copies of both the pink and goldenrod Petroleum Inspection Report forms are to be forwarded to the regional office within five (5) working days after completion of the inspection. Upon approval by the Division, electronic forms may be submitted.
