Subject: Your Board is about to BREAK any relationship you have with the AG Community!
Importance: High

Chair Hartmann and Members of the Board,

Item D-1 on your agenda tomorrow is one of the most egregious items ever.

The insult to injury? Not a single farmer I know knew this was coming!

Your AG Advisory Committee was not informed either.

Is that how you intend to treat the largest industry in the county???

You obviously have no idea of what the farmers in our region think about CAUSE.

CAUSE presents itself to you as a farmworker support group. Whereas our local farmers realize that the real mission of CAUSE is political and labor organizing.

So, you are teaming up with them to create a \$1 million dollar farm labor center???

Whether they end up being the contractor or not, this money will go to their CAUSE at the expense of grower relations with you and their employees.

For instance:

CAUSE has been spreading misinformation to vulnerable farmworkers, their families, and children for a decade or so. All their efforts are aimed at creating mistrust, resentment, and agitation between growers and field workers.

The ag community was thoroughly insulted when your public health dept sought out the help of CAUSE to reach farmworkers instead of ag organizations and employers during covid and here once again CAUSE was spreading disinformation about all that the ag community was doing to keep its workers safe and our food supply going.

There are government agencies, non-profits, and for-profit entities that provide all the services you are intending to provide.

Please remove D-1 from your agenda.

Chair Hartman and Board Members:

I urge you to remove D-1 from the agenda on 11/29/22. I do not understand the County "partnering" with CAUSE, a local, radical advocacy group for farm workers, on a grant using TAXPAYER funds.

Would the County be happy to support taxpayer monies subsidizing local unions in their dealings with the County on organizing, bargaining, etc.? Of course not.

It would seem that something having to do with a farmworker resource center would include farmers in that discussion. I'm under the impression that never happened in this instance. Why not? As the County's mission statement says:

"Collaborative Problem Solving: Develop innovative and better solutions to difficult problems and focus on outcomes with shared accountability and ownership. Reach solutions by pooling knowledge, skills and efforts and collaboratively act to achieve desired outcomes."

I am not seeing any "collaboration" on this resource center grant. As a taxpayer, I do not want to assist a radical organization, with additional funding, that consistently fights our largest industry in the County. This is not the business of the County! If CAUSE wants to build a "Farmworker Resource Center", let them, but not on the taxpayers dime.

Please remove this item from your agenda.

D1 Funding for a County Farmworker Resource Center

Dear Santa Barbara County Supervisors,

Please authorize the Santa Barbara County Public Health Department to apply for state grant funding to create a local Farmworker Resource Center. We owe an immense debt of gratitude to our farmworker community for their service as essential workers throughout the COVID-19 pandemic and their vital work every day to put food on our tables. The Ventura County Farmworker Resource Program has been a successful model that has helped to improve working conditions for local farmworkers. The program provides an accessible place for farmworkers to receive assistance in navigating public agencies, receive information on wage and hour laws, health and safety laws, resolve workplace disputes and pursue other legal rights. This success has opened the opportunity for state grant funding to expand this program to three other California counties and we hope that Santa Barbara County can be one of them.

Thank you.

Dear Santa Barbara County Supervisors,

I write to urge you to authorize the Santa Barbara County Public Health Department to apply for state grant funding to create a local Farmworker Resource Center!

Our neighboring Ventura County Farmworker has a Resource Program that has helped to improve working conditions for local farmworkers, and enables them to receive assistance in navigating public agencies, receive information on wage and hour laws, health and safety laws, resolve workplace disputes and pursue other legal rights.

This success has created opportunity for state grant funding to expand this program to three other California counties. Santa Barbara County should be one of them!

Surely our farmworkers in Santa Barbara County are just as worthy of this resource! Such a program ultimately serves all of us, helping to keep our farmworkers healthy and productive, and assuring they have the resources they need to live and support their families.

There is a moral imperative here: a question of justice and compassion for the people who most contribute to our local and regional economy.

Thank you.

Respectfully,

Scott Fina, Ph.D.

Dear Santa Barbara County Supervisors,

I am a cultural anthropologist who conducted over a decade of ethnographic research on farmworker health in SB County in the 1990's and early 2000's. I want to urge you to please authorize the Santa Barbara County Public Health Department to apply for state grant funding to create a local Farmworker Resource Center. We owe an immense debt of gratitude to our farmworker community for their service as essential workers throughout the COVID-19 pandemic and throughout the long history of California agriculture. Their vital work every day has helped to put food on our tables and those of people around the state and nation. The Ventura County Farmworker Resource Program serves as a successful model that has helped to improve working conditions for local farmworkers. The program provides an accessible place for farmworkers to receive assistance in navigating public agencies, receive information on wage and hour laws, health and safety laws, resolve workplace disputes and pursue other legal rights. Their success has opened the opportunity for state grant funding to expand this program to three other California counties, and we hope that Santa Barbara County can be one of them. This kind of resource center has been sadly needed in our County for many years—please vote to enable its creation.

Thank you.

I reside in the county of Santa Barbara and I support applying for this program (item D1 on your agenda tomorrow, 11.28.22). Farmworkers are a vital part of our workforce but they are not treated with enough respect or paid sufficiently well. Any resource that would provide assistance to them and their families would be hugely beneficial for their quality of life. I hope the board will agree to apply for this funding.
