Subject: Support for Oil Phase Out

Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

To Whom It May Concern:

I am writing to ask you to support the Oil Phase Out in Santa Barbara. We need to focus on clean energy and our future with less fossil fuels. Let's keep Santa Barbara beautiful and prevent more pollution and oil spills.

Thank You!

Elizabeth St. Andre

Subject: Oil Capping and Production

Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

Dear Supervisors, as a resident of the city and county of Santa Barbara, I would like to ask that you vote to cap all of the existing idle oil wells within the County's jurisdiction and to also develop and support a plan to phase out all oil production in the County. My position is based on the damage caused to the environment from oil production and as you know, Sanata Barbara County has been particularly impacted.

Thank you for your support.
