#### **Sec. 15-4. Findings with regard to geological, topographical and climatic conditions.**

The Board hereby finds that all amendments, including additions and deletions, to the CFC are based upon the following geological, topographical and climatic conditions in the area protected by the Santa Barbara County Fire Department. Those conditions include:

- (a) That the Santa Barbara County Fire Department service area is prone to extreme weather conditions, from hot dry winds from the east (Santa Ana and Sundowner winds), to strong westerly (coastal) winds, which greatly enhance the ability for fire to spread. In addition, the topographical layout and features of the County Fire Department's service area makes the area subject to isolation should a flood or earthquake occur, which would prevent or severely limit and delay the north and south entities from giving or receiving mutual aid and emergency assistance;
- (b) The present firefighting resources of this county are constrained in their efforts to control fires in large unsprinklered buildings within the urban limit boundary and all buildings outside of the urban limit boundary as designated in the county comprehensive plan;
- (c) Geologic and topographic conditions in the county result in extended response times for firefighting resources, which may contribute to greater life and property loss in large unsprinklered buildings within the urban limit boundary and in all structures outside of the urban limit boundary; and
- (d) Climatic conditions and flammable vegetation contribute to the extreme high fire hazard severity in the county, resulting in numerous wildland fires, which draw existing fire department resources

from their structure protection areas for extended periods of time. This in turn extends response times, which may contribute to greater life and property loss in large unsprinklered buildings within the urban limit boundary and in all structures outside of the urban limit boundary.

The facility must submit a one-time business plan and site map to the county fire department, complete an exemption form and pay a one-time only agricultural exemption registration fee of one hundred one dollars. If, however, the cumulative fuel storage capacity of all tanks at a single facility is greater than twenty thousand gallons, the above ground fuel tank exemption would not apply.

\*\* **Remote site exemption.** Remote sites are exempt from the business plan if the hazardous material inventory amounts are equal to or less than all of the following: five hundred cu. ft. compressed inert gases; five hundred GAL combustible liquids used as a fuel source (diesel, fuel oil, kerosene); two hundred GAL electrolytes in closed containers; five hundred GAL lubricating and hydraulic fluids; and one thousand two hundred GAL flammable gas used as a fuel source (propane). The facility has to submit a one-time business plan to the county fire department, complete an exemption form and pay a one-time only remote site exemption registration fee of one hundred one dollars. A remote site is defined as an unstaffed facility located in an isolated sparsely populated area, the facility is secured and not accessible to the public and warning signs are posted and maintained for hazardous materials pursuant to the CA Fire Code.

\*\*\* **Exceptional time and consultation fees.** Surcharges based on actual costs will apply when, in the opinion of the fire chief, circumstances develop that require extraordinary time for issues including but not limited to special research, consultation or numerous inspections to ensure compliance.

**DELINQUENT FEES.** Fees that are invoiced by the fire department as outlined in section 15-104 "Certified Unified Program Agency (CUPA)—Hazardous Materials Fee Schedule" and which are not paid within thirty calendar days of the original invoice date shall be considered delinquent and the following charges added for delinquency:

1. For the first sixty days from the original invoice date that the bill is not paid in its entirety, a penalty fee equal to ten percent of the unpaid amount of such fee shall be assessed.
2. For the next thirty-day period that the bill is not paid in its entirety, a penalty fee equal to fifteen percent of the unpaid balance shall be assessed.
3. Fees not paid within ninety days from the original invoice date may be referred to the district attorney or other agency for the purposes of collection. In addition to the fee(s) and any penalties associated with delinquent fee(s) described above, the accounts referred for collection shall be charged for the actual costs associated with collection efforts.

**Note:** Businesses in the county must have a valid permit to conduct operations regulated by the certified unified program agency (CUPA) and hazardous materials unit. Once a facility is in compliance and the invoice fees have been paid, the fire department will issue a permit. Failure to pay the required fee(s) and possess a valid permit may cause regulated operations by the business to cease and cause the fire department to pursue enforcement actions.
