Recommended Actions:

That the Board of Supervisors considers the following:

- A. Make available to the public the Fiscal Year (FY) 2017-18 AB1600 Mitigation Fee Annual Report which includes the mitigation fee financial activity for FY17-18 and the fee schedules for the Countywide, Orcutt, Goleta, South Coast, Santa Ynez, Lompoc and Santa Maria development impact fee programs.
- B. Continue the AB1600 Mitigation Fee Annual Report to the November 6, 2018 administrative agenda to receive and review the AB1600 Mitigation Fee Annual Report.
- C. Determine that the above actions are not a “project” under the California Environmental Quality Act (CEQA) pursuant to Section 15378(b)(5) of the CEQA Guidelines, because they consist of administrative activities of government that will not result in direct or indirect physical changes in the environment.

Background:

Under the authority of Government Code § 66000 et seq. (AB 1600/Mitigation Fee Act), which allows local jurisdictions to establish development impact fees, the County of Santa Barbara has adopted several fee programs to fund needed public infrastructure. Some of the established fee programs are imposed Countywide, while others apply to specific geographical areas (e.g., community planning areas) within the County. Mitigation Impact Fees are fees imposed on new development to pay for their “fair share” of the construction costs associated with new public infrastructure (e.g., roads, parks, library, etc.) necessary to serve the new development.

The following discussion addresses the automatic annual fee adjustment and the annual reporting requirements for each of the fee programs as indicated in Table 1.

Per Board Direction the County Executive Office is working with consultants David Taussig & Associates, Inc. to conduct a comprehensive study to prepare an updated AB 1600 Development Impact Fee Study for the County. This study will recommend the appropriate fee justification methodology and fee levels to support specific types of County-selected capital facilities to serve new growth. The Fee Study will also further the County’s goals, such as the fundamental goals related to environment, urbanization, agriculture and open lands per the land use element of the County’s General Plan. The County Executive Office is coordinating countywide efforts to provide the David Taussig & Associates, Inc. the requested comprehensive data to complete the first phase of the study. We have received a preliminary report from Taussig. Departmental staff is reviewing the initial fee analysis and the project list for completeness. The County Executive Office staff anticipates a final report and recommended fee ordinance amendments in November 2018.

Automatic Annual Fee Adjustments

Automatic annual fee adjustments are mandated by the adopted County ordinances, except for the Quimby and Fire fees. For the mitigation fees that do require a fee adjustment, the mitigation fees are adjusted automatically on July 1st of each fiscal year, by a percentage equal to the appropriate engineering Construction Cost Index as published by Engineering News Record (ENR) for the preceding twelve months. The ENR CCI for the month of June was 2.60% and it was used to calculate the fee adjustment for fiscal year 2018-19.

Annual Reporting Requirements

Government Code Section 66000 et seq. mandates that any fees imposed by a local agency as a condition of approving a development project must be reviewed annually and every five years by the local agency at a noticed public meeting. Section 66006(b)(1) of the Government Code requires that for each separate account or fund established pursuant to AB 1600, the local agency shall, within 180 days after the last day of each fiscal year, make available to the public the following information for the fiscal year:

- A brief description of the type of fee in the account or fund.
- The amount of the fee.
- The beginning and ending balance of the account or fund.
- The amount of the fees collected and the interest earned.
- An identification of each public improvement on which fees were expended and the amount of the expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees.
- An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement and the public improvement remains incomplete.
- A description of each inter-fund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, and, in the case of an inter-fund loan, the date on which the loan will be repaid, and the rate of interest that the account or fund will receive on the loan.
- The amount of refunds made pursuant to subdivision (e) of § 66001 and any allocations pursuant to subdivision (f) of § 66001.

Mandates and Service Levels:

Government Code requires that the County shall make certain information available to the public within 180 days following the end of the fiscal year. Ordinances adopted by the County to implement the development impact mitigation fee programs require that each department's director prepare a report that shall be submitted to the Board within 60 days following the end of the fiscal year. County fee ordinances mandate automatic annual fee adjustments to keep pace with the cost of constructing public facilities.

Fiscal and Facilities Impacts:

No fiscal or facility impacts are anticipated with the annual fee report and fee adjustments.

Special Instructions:

Continue item to administrative agenda on November 6, 2018, which allows for the County to review the information at the next regularly scheduled public meeting not less than the 15 days after the information is made available to the public per Government Code § 66006(b)(2).
