I will not be able to make a verbal statement today due to an emergency but I'd like to state for the record that I support the Bedford appeal. The Strauss project is a debacle. It is a travesty that SBC has allowed the project to already move forward during the appeal process with the heavy branch removal of oak tree limbs on Miguelito Canyon Road and road modifications.

"Substantial evidence supports that both the CBAR approval and the Planning Commissions affirmation of said approval constituted an abuse of discretion insofar as each failed to comply with the plain language of the law in undertaking their duty. Moreover, as a matter of fact and law, Visual Resource Policy 2 in now way provides either body the "discretion" to circumvent making the nine required findings on the Wine Turbine Structure."

Thank you, Kate
