Attn: Chair Hartmann & Board of Supervisors:

Thank you Supervisors for your time today and consideration of our neighborhoods concerns.

My name is John Padfield. My wife, Julie & I have lived on College Canyon Road in the City of Solvang for 36 years. College Canyon is a residential bucolic neighborhood with no commercial activity. However, our neighborhood is threatened by the proposed commercial project at 988 Fredensborg Cyn. Rd.

College Canyon, along with the adjacent residential neighborhood of Sunrise Village lies immediately South of the Appellant's site. Given that, our new, morning sunrise should this project be approved will be to the north rather than the east which it has been forever. Why? Because a 16,000 square foot greenhouse with translucent panels facing directly into our neighborhood, on an upward slope is an unacceptable light trespass issue. I will also mention the applicant was previously unable to contain light from a much smaller facility.

The Appellant, Mr. Decker. has been unanimously denied by the Planning Commission and is now asking for your overrule. Please do take the right action for the citizens of Solvang and support the professionals - your Planning Commission by supporting their decision. This is also consistent with the Visual development Goals of the SYV Community plan pointed out by the Planning Commission.

Thank you for listening to our concerns regarding our quiet, county neighborhood.

Respectfully,

John & Julie Padfield  
935 College Canyon Road  
Solvang
