Summary Text:

This item is on the agenda in order to authorize the Chair to execute emergency response and disaster recovery services agreements.

County Counsel worked with the Federal Emergency Management Agency (FEMA), and the State Office of Emergency Services (CalOES), for the additional language required to be included in our existing contracts that are subject to state and federal reimbursement. The new agreements with the federal clauses will replace our existing contracts for these services and will be used for work performed from March 13, 2018 forward. These agreements will also be used for routine maintenance work.

Background:

Although the Flood Control District has a grace period, until July 1, 2018, to implement 2 CFR Part 200, FEMA requested the inclusion of federal clauses in agreements receiving federal funding, our goal was to bring these agreements to your Board for approval as soon as feasibility possible.

Fiscal and Facilities Impacts:

Funding Sources	Current FY Cost:	FY 2018/19	Total One-Time Project Cost
South Coast FZ	\$ 6,500,000		
Various Flood Zones		\$ 1,500,000	
Federal Fees			
Other:			
Budgeted: No Total	\$ 6,500,000	\$ 1,500,000	\$ -

Fiscal Analysis:

Narrative:

Current costs associated with the response events from the 1-9 Debris Flow are being paid out of the South Coast Flood Zone, using current appropriations. A Budget Revision Request will be coming before your Board for approval addressing costs and anticipated expenditures that will be incurred by Flood Control. Appropriations will be increased using Flood Control reserves. These costs will also be submitted to the State and Federal agencies for reimbursements.

These agreement amounts are being set higher than we anticipate for the 1-9 Debris Flow response efforts to retain the ability to respond to additional events that may occur this winter. In addition, these

agreements replace existing agreements which were entered into to be used for routine maintenance work as well. There are no General Fund monies associated with these contracts.

Key Contract Risks:

The key contracts risks are low for these agreements.

Special Instructions:

Direct the Clerk of the Board to send two originals of each amendment/agreement and a copy of the minute order to the Flood Control District office, Attn: Christina Lopez.
