Subject: Re: Thomas Fire & Cannabis on County Board of Supervisors Meeting Agenda for May 1, 2018

For the record, I am against bringing cannabis into my family oriented town of Carpinteria. I will do everything in my power to speak out against its growth in my town! We are a small community and are close knit. The flower grower industry is a far cry from a cannabis industry. Please consider if you would like cannabis in your neighborhood. I sincerely doubt you would agree to it where you live. You wouldn't want the traffic of buyers near your neighborhood either. Carpinteria will change and will lose in the end. It's really sad to think that you are making the decisions that will allow this to happen to this really special place called Carpinteria.
