- A. Allowable land uses.** The land uses allowed by this Development Code in each zone and overlay zone are listed in Chapters [35.21](#) through [35.28](#), together with the type of planning permit required for each use. Each listed land use type is defined in [Article 35.11 \(Glossary\)](#).
- 1. Establishment of an allowable use.** Any land use identified by Chapters [35.21](#) through [35.28](#) as being allowable within a specific zone may be established on any lot within that zone, subject to the planning permit requirements of Subsection B. ARTICLE 35.2, Zones and Allowable Land Uses, of Section 35-1, the Santa Barbara County Land Use and Development Code, of Chapter 35, Zoning, of the Santa Barbara County Code, is hereby amended

to amend Subsection 3, Hazardous materials, of Subsection F, Development standards, of Section 35.28.060, Airport Approach (F) Overlay Zone, of Chapter 35.28, Overlay Zones, to read as follows:

3. **Hazardous materials.** ~~Any use within a Clear zone that involves the storage of more than 10 gallons of flammable liquid or hazardous material shall, prior to the issuance of a Coastal Development Permit or Land Use Permit, be reviewed by the Fire Department providing inspection, and/or emergency response service to the site. No Coastal Development Permit or Land Use Permit shall be issued unless and until the potential hazards associated with the storage of the materials are mitigated to the reasonable satisfaction of the Fire Department.~~

Prior to the issuance of a Land Use Permit in compliance with Section 35.82.110 (Land Use Permits) or a Zoning Clearance in compliance with Section 35.82.210 (Zoning Clearances) for a use located within a Clear Zone that involves the storage of more than 10 gallons of flammable liquid or hazardous material:

- (b) Any potential hazards associated with the storage of said materials shall be mitigated to the reasonable satisfaction of the County Public Health Department and applicable Fire Department.

SECTION 26:

ARTICLE 35.2, Zones and Allowable Land Uses, of Section 35-1, the Santa Barbara County Land Use and Development Code, of Chapter 35, Zoning, of the Santa Barbara County Code, is hereby amended to amend Chapter 35.28, Overlay Zones, to delete the text of existing Section 35.28.070, Carpinteria Agriculture (CA) Overlay Zone and reserve the Section number for future use.

SECTION 27:

ARTICLE 35.2, Zones and Allowable Land Uses, of Section 35-1, the Santa Barbara County Land Use and Development Code, of Chapter 35, Zoning, of the Santa Barbara County Code, is hereby amended to amend Section 35.28.120, Flood Hazard (FA) Overlay Zone, of Chapter 35.28, Overlay Zones, to read as follows:

35.28.120 - Flood Hazard Area (FA) Overlay Zone

- A. **Purpose and intent.** The Flood Hazard (FA) overlay zone is intended to promote public health, safety and welfare and to minimize public and private losses due to flood conditions in areas within the 100-year flood plain by alerting property owners that County Code Chapter 15A (Floodplain Management) applies to their property, and avoiding the exposure of new development to flood hazards, minimizing the need for future flood control protective works and resulting alteration of stream and wetland environments. This overlay zone serves as a mechanism whereby members of the public and staff can easily identify areas of special flood hazard that are subject to County Code Chapter 15A (Floodplain Management).
- B. **Applicability.** The requirements of this Section apply to special flood hazard areas as defined in County Code Chapter 15A (Floodplain Management).
1. **Additional standards.** Each land use shall comply with the requirements of the primary zone and "development" as defined in County Code Chapter 15A shall also comply with the additional requirements in Chapter 15A.
 2. **Flood Hazard Overlay Map.** The Flood Hazard Overlay Map shall reflect the boundaries of special flood hazard areas as shown on the current Federal Emergency Management Agency (FEMA) maps on file with the County Public Works Flood Control and Water ~~Conservation District~~ Agency (referred to in this Section as the "Flood Control ~~District~~ Agency").

3. **Relationship to primary zone.** Each land use and proposed development within the FA Overlay Zone shall comply with all applicable requirements of the primary zone, in addition to the requirements of this Section.

C. Permit and processing requirements.

1. **Referral and determination.** Prior to the ~~issuance~~ approval of a ~~Coastal Development Permit in compliance with Section 35.82.050 (Coastal Development Permits)~~ or a Land Use Permit in compliance with Section 35.82.110 (Land Use Permits) or a Zoning Clearance in compliance with Section 35.82.210 (Zoning Clearances); for all development subject to the FA Overlay Zone:
 - a. ~~The applicant shall be referred to the Flood Control District Agency for a determination as to whether the development is subject to the requirements of County Code Chapter 15A. If the Flood Control District Agency determines that the proposed development is subject to Chapter 15A, then the development shall comply with the requirements of Chapter 15A. If the Flood Control District Agency determines that the proposed development is not subject to Chapter 15A, then the development is exempt from the requirements of Chapter 15A.~~
2. **b. Permit requirement.** ~~After obtaining the appropriate clearance or receiving a written exemption from the Flood Control District, the proposed development shall comply with the Coastal Development or Land Use Permit or Zoning Clearance requirements of the primary zone~~ The applicant shall obtain the appropriate clearance or receive a written exemption from the Flood Control Agency.

- B. Required findings for approval.** The approval of a Lot Line Adjustment application shall require that the review authority first make all of the following findings.
1. The Lot Line Adjustment is in conformity with all applicable provisions of the Comprehensive Plan and this Development Code.
 2. ~~No lot involved in the Lot Line Adjustment that conforms to the minimum lot size of the applicable zone shall become nonconforming as to lot size as a result of the Lot Line Adjustment.~~
 2. **Minimum lot area and minimum lot width.**
 - a. **Minimum lot area.** ~~No lot involved in the Lot Line Adjustment whose area is equal to or greater than the minimum lot area requirement of the applicable zone shall become smaller than the minimum lot area requirement of the applicable zone as a result of the Lot Line Adjustment.~~
 - b. **Minimum lot width.** ~~No lot involved in the Lot Line Adjustment whose lot width is equal to or greater than the minimum lot width requirement of the applicable zone shall become smaller than the minimum lot width requirement of the applicable zone as a result of the Lot Line Adjustment.~~
 3. Except as provided in this Section, all lots resulting from the Lot Line Adjustment shall comply with the minimum lot ~~size~~ area requirements of the applicable zone. A Lot Line Adjustment may be approved that results in one or more lots that are ~~nonconforming as to size,~~ smaller than the minimum lot area requirement of the applicable zone provided that it complies with all of the following requirements.
 - a. ~~Four or fewer existing lots are involved in the adjustment.~~
 - b a. The Lot Line Adjustment shall not result in increased subdivision potential for any ~~affected~~ lot involved in the lot line adjustment.
 - e b. The Lot Line Adjustment will not result in a greater number of residentially developable lots than existed prior to the adjustment. For the purposes of this Subsection B.3 only, a lot shall not be deemed residentially developable if the documents reflecting its approval and/or creation identify that, 1) the lot is not a building site, or 2) the lot is designated for a non-residential purpose including well sites, reservoirs and roads. A lot shall be deemed residentially developable for the purposes of this Subsection B.3 if it has an existing one-family dwelling constructed in compliance with a valid County permit, or existing and proposed lots comply with all of the following criteria.
 - (1) **Water supply.** The lot shall have adequate water resources to serve the estimated interior and exterior needs for residential development as follows: 1) a letter of service from the appropriate district or mutual water company shall document that adequate water service is available to the lot and that the service complies with the company's Domestic Water Supply Permit, or 2) a Public Health Department or State approved water system.

- (2) **Sewage disposal.** The lot is served by a public sewer system and a letter of available service can be obtained from the appropriate ~~public sewer~~ district. A lot to be served by an onsite wastewater treatment system shall meet all applicable County requirements for permitting and installation, including percolation tests, as determined by the Public Health Department.
- (3) **Access.** The lot is currently served by an existing private road meeting applicable fire agency roadway standards that connects to a public road or right-of-way easement, or can establish legal access to a public road or right-of-way easement meeting applicable fire agency roadway standards.
- (4) **Slope stability.** Development of the lot including infrastructure avoids slopes of 30 percent and greater.
- (5) **Agriculture viability.** Development of the lot shall not threaten or impair agricultural viability on productive agriculture lands within or adjacent to the lot.
- (6) **Environmentally sensitive habitat.** Development of the lot avoids or minimizes impacts where appropriate to environmentally sensitive habitat and buffer areas, and riparian corridor and buffer areas.
- (7) **Hazards.** Development of the lot shall not result in a hazard to life and property. Potential hazards include, flood, geologic and fire.
- (8) **Consistency with Comprehensive Plan and Development Code.** Development of the lot is consistent with the setback, lot coverage and parking requirements of the Development Code and consistent with the Comprehensive Plan and the public health, safety and welfare of the community.

To provide notification to existing and subsequent property owners when a finding is made that a lot is deemed not to be residentially developable, a statement of this finding shall be recorded concurrently with the deed of the lot, in compliance with County Code Section 21-92 (Procedures).

4. The Lot Line Adjustment will not increase any violation of lot width, setback, lot coverage, parking or other similar requirement of the applicable zone, or make an existing violation more onerous.
5. The affected lots are in compliance with all laws, rules and regulations pertaining to zoning uses, setbacks and any other applicable provisions of this Development Code, or the Lot Line Adjustment has been conditioned to require compliance with these rules and regulations, and any zoning violation fees imposed in compliance with applicable law have been paid. This finding shall not be interpreted to impose new requirements on legal nonconforming uses and structures under the requirements of [Chapter 35.101 \(Nonconforming Uses, Structures, and Lots\)](#).
6. Conditions have been imposed to facilitate the relocation of existing utilities, infrastructure and easements.

SECTION 34:

ARTICLE 35.4, Standards for Specific Land Uses, of Section 35-1, the Santa Barbara County Land Use and Development Code, of Chapter 35, Zoning, of the Santa Barbara County Code, is hereby amended to amend Section 35.42.030, Agricultural Employee Dwellings, of Chapter 35.42, Standards for Specific Land Uses, to read as follows:
