Subject: Goleta Beach 2.0

Dear Representatives,

Our family is very much in support of the Goleta Beach 2.0 project for obvious environmental, family, and *bird watching* reasons.

We have served the community as compassionate, hardworking professional educators, non-profit board members, and volunteers for 3+ decades...and now our daughter, a prominent graduate of DP and now Ph.D, continues the legacy!

We love our community and want to preserve as much of it *as it is and can be* in a manner that places family, community, and preservation first.

The Goleta Beach is a very enjoyable location we frequent regularly.

Thanks.

(Dr.) Hymon and Mrs. Juanita Johnson
