- As seen by the federal prosecution of a court judge in Milwaukee, it is a violation of federal law to assist an illegal alien in their effort to avoid arrest by federal law enforcement.
- As seen by the federal prosecution of a court judge in New Mexico, it is a violation of federal law to harbor an illegal alien.
- Federal law concerning aiding and harboring illegal aliens applies to the Santa Barbara County Sheriff, County Administrator, County Council, all members of the Board of Supervisors and their staff and all other county government employees.

Thank you
