Subject: Hijacking of redistricting by liberals

To: Board of Supervisors 7-29-2011

The following is "THE" story of what is behind the decisions of the three liberal supervisors to split the county along lines not supported by the voters.

The first and second supervisory districts are usually held by "liberals" while the third district is a swing district which the liberals must hold to control the county anti growth, anti business, politics. In most years of elections this has been done by the use of the UCSB/IV student vote. The students are transients who know nothing of the local politics or the politics of the local candidates. But they vote for them because the Associated Students Council and the Professors Academic Senate tell them how to vote. The students are a bunch of Lemmings who go with flow, SO each election the liberals running in the third district get elected by their "group vote." They typically vote 89% for the designated candidate. No elections in the state have more than a 65% turnout, only the sheep at UCSB/IV vote this way.

Third District Supervisor, Doreen Farr owes her election to this "Group Vote" by students who had no idea just who she was or what her political history was. So in the County redistricting plans the Supervisors Carbajal, Wolf and Farr want to keep control by splitting the county cities and keeping the students in the Third district. If the students were to be put in the 2nd district they would vote with the liberal Wolf and the Third district would go conservative since most voters in the district are conservative. Doreen Farr would never have gotten elected in the last election without the student vote.

In addition, the three liberal supervisors have a **conflict of interest** in their decision to split the county. The Map that they have chosen is presented by George Relles who is a member of the ultra liberal, socialist, county group called SBCAN. And, so also are the three Supervisors members of this group. The County citizens and taxpayers have been sidetracked in offering their opinions by this corrupting influence. The North county agent of this group is Joyce Howerton who spoke in favor of this bad plan for SBCAN at the Lompoc City Council and the Board of Supervisors meetings.

This theft of our rights to self determination by the three south county liberal supervisors need to be stopped now by demanding that the Supervisors turn over the redistricting effort to a non-partisan, independent board who will consider the wishes of all the citizens!!

Concerned Taxpayers, I.N.C.
