Dear Supervisors. Esteemed servants of the County we love,

The merger of BOCH/ CG and SCHAC proposed before you is an elegant balance in which the parts become greater than their sum and are yet not dissolved in the process. Those of us who have labored long on previous collaborations should be encouraged that we finally will be consistently co- laboring in the same direction using a shared "road map."

I have looked at the plan, though some details are yet in progress, and I like what I see. If I may be of any service in the delivery of this, I am (as always) your servant.

With affection and respect,

Fr. Jon
