Contractor further covenants that in the performance of this Agreement, no person having any such interest shall be employed by Contractor. Contractor must promptly disclose to County, in writing, any potential conflict of interest. County retains the right to waive a conflict of interest disclosed by Contractor if County determines it to be immaterial, and such waiver is only effective if provided by County to Contractor in writing.

7. NO PUBLICITY OR ENDORSEMENT

Contractor shall not use County's name or logo or any variation of such name or logo in any publicity, advertising or promotional materials. Contractor shall not use County's name or logo in any manner that would give the appearance that the County is endorsing Contractor. Contractor shall not in any way contract on behalf of or in the name of County. Contractor shall not release any informational pamphlets, notices, press releases, research reports, or similar public notices concerning the County or its projects, without obtaining the prior written approval of County.

All accounting records shall be kept in accordance with generally accepted accounting principles. County shall have the right to audit and review all such documents and records at any time during Contractor's regular business hours or upon reasonable notice. In addition, if this Agreement exceeds ten thousand dollars (\$10,000.00), Contractor shall be subject to the examination and audit of the California State Auditor, at the request of the County or as part of any audit of the County, for a period of three (3) years after final payment under the Agreement (Cal. Govt. Code Section 8546.7). Contractor shall participate in any audits and reviews, whether by County or the State, at no charge to County.

If federal, state, or County audit exceptions are made relating to this Agreement, Contractor shall reimburse all costs incurred by federal, state, and/or County governments associated with defending against the audit exceptions or performing any audits or follow-up audits, including but not limited to: audit fees, court costs, attorneys' fees based upon a reasonable hourly amount for attorneys in the community, travel costs, penalty assessments, and all other costs of whatever nature. Immediately upon notification from County, Contractor shall reimburse the amount of the audit exceptions and any other related costs directly to County as specified by County in the notification.

10. SEVERABILITY

If any one or more of the provisions contained herein shall for any reason be held to be invalid, illegal or unenforceable in any respect, then such provision or provisions shall be deemed severable from the remaining provisions hereof, and such invalidity, illegality or unenforceability shall not affect any other provision hereof, and this Agreement shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

11. ENTIRE AGREEMENT AND CHANGE ORDERS

In conjunction with the matters considered herein, this Agreement contains the entire understanding and agreement of the parties and there have been no promises, representations, agreements, warranties, or undertakings by any of the parties, either oral or written, of any character or nature hereafter binding except as set forth herein. This Agreement may be altered, amended or modified only by an instrument in writing, executed by the parties to this Agreement and by no other means. Each party waives their future right to claim, contest or assert that this Agreement was modified, canceled, superseded, or changed by any oral agreements, course of conduct, waiver or estoppel.

12. COMPLIANCE WITH LAW

Contractor shall, at its sole cost and expense, comply with all County, State, and Federal ordinances and statutes now in force or which may hereafter be in force with regard to this Agreement. The judgment of any court of competent jurisdiction, or the admission of Contractor in any action or proceeding against Contractor, whether County is a party thereto or not, that Contractor has violated any such ordinance or statute, shall be conclusive of that fact as between Contractor and County.

13. CALIFORNIA LAW AND JURISDICTION

This Agreement shall be governed by the laws of the State of California. Any litigation regarding this Agreement or its contents shall be filed in the County, if in state court, or in the federal district court nearest to the County, if in federal court.

14. EXECUTION OF COUNTERPARTS

This Agreement may be executed in any number of counterparts and each of such counterparts shall for all purposes be deemed to be an original; and all such counterparts, or as many of them as the parties shall preserve undestroyed, shall together constitute one and the same instrument.

15. AUTHORITY

All signatories and parties to this Agreement warrant and represent that they have the power and authority to enter into this Agreement in the names, titles and capacities herein stated and on behalf of any entities, persons, or firms represented or purported to be represented by such entity(ies), person(s), or firm(s) and that all formal requirements necessary or required by any state and/or federal law in order to enter into this Agreement have been fully complied with. Furthermore, by entering into this Agreement, Contractor hereby warrants that it shall not have breached the terms or conditions of any other contract or agreement to which Contractor is obligated, which breach would have a material effect hereon.

16. SURVIVAL

All provisions of this Agreement which by their nature are intended to survive the termination or expiration of this Agreement shall survive such termination or expiration.

17. PRECEDENCE

In the event of conflict between the provisions contained in the numbered sections of this Agreement and the provisions contained in Section 1, contract documents herein, these numbered sections shall prevail.

At the time of execution of this Agreement, the County's Unified Certification Program (UCP) has not yet completed the reevaluation process described in 49 CFR § 26.111, and, therefore, there is no Disadvantaged Business Enterprise (DBE) goal for this contract. Contractor must still comply with the prompt payment requirements set forth in 49 CFR § 26.29.

County of Santa Barbara
Public Works
Civil and Respectful Workplace Contract Requirements Policy

This Civil and Respectful Workplace Contract Requirements Policy ("policy") applies to construction contracts awarded by the County of Santa Barbara for Public Works construction. The policy is applicable to County employees, vendors, Prime Contractors and Subcontractors and all employees working on, or providing supervision, administration, materials, or other components of work related to Public Works projects (hereinafter "Parties").

I. Commitment to a Civil and Respectful (Non-Abusive) Workplace

By implementation of this policy, the County is making clear its intent to review and resolve issues of civil and disrespectful and/or abusive conduct in a similar manner to Equal Employment Opportunity (EEO) issues. The County of Santa Barbara is committed to creating and maintaining a positive and productive work environment for its employees, partners, customers, and clients. The County of Santa Barbara embraces the concept of a Civil and Respectful Workplace as a core value, and is committed to promoting an environment where employees, vendors, and contractors respect each other in an atmosphere of collaboration, openness, safety, and equality. Failure to abide by this policy may be considered a material breach that could result in termination of a contract.

II. Examples of Uncivil and Disrespectful and/or Abusive Behavior

The County of Santa Barbara expects its employees and partners to be mindful of their behavior and its potential impacts on others at all times. Accordingly, consistent with this and other relevant County policies, all Parties are expected to refrain from engaging in uncivil and disrespectful and/or abusive behavior. Uncivil and disrespectful behavior may or may not be intentional. Unintentionally uncivil and disrespectful behavior may still violate this policy, notwithstanding the legal definition of "abusive conduct" in California Government Code § 12950.5 provided in the following paragraph.

"Abusive conduct" is "conduct of an employer or employee in the workplace, with malice, that a reasonable person would find hostile, offensive, and unrelated to an employer's legitimate business interests. Abusive conduct may include repeated infliction of verbal abuse, such as the use of derogatory remarks, insults, and epithets, verbal or physical conduct that a reasonable person would find threatening, intimidating, or humiliating, or the gratuitous sabotage or undermining of a person's work performance. A single act shall not constitute abusive conduct, unless especially severe and egregious."

Examples of uncivil and disrespectful and/or abusive behavior which are prohibited by this policy include, but are not limited to:

- Abusive language in any form of communication;
- Exhibiting aggressive behaviors such as shouting, threats of violence, or other non-verbal expressions of aggression (e.g., pounding a desk);
- Talking down to others, using degrading remarks or a condescending tone of voice;
- Embarrassing, degrading, and/or humiliating employees publicly in front of others;
- Undermining another's work;

- Intentionally withholding necessary information from an employee, or giving them wrong information, thereby impeding the ability to do their jobs;
- Demeaning jokes, rumors or gossip, or harassment;
- Encouraging others to disregard County instructions or orders for jobsite work;
- Using this policy and procedure to make a knowingly false complaint or complaints;
- Making threats or using intimidating tactics; and
- Engaging in any behavior a reasonable person would find demeaning, humiliating or bullying.

These types of behaviors are well recognized as having damaging consequences for their recipients, the observers of the behaviors, and organizations as a whole and are therefore not tolerated. Failure to abide by this policy may be considered a material breach that could result in termination of a contract.

III. Party Responsibilities

The Parties have a responsibility to contribute to achieving a work environment which does not tolerate uncivil and disrespectful and/or abusive behavior.

All Parties to the contract must:

- Model good examples by treating all with courtesy and respect;
- Promote awareness of this policy and complaint procedures;
- Be vigilant for signs of inappropriate behaviors through observation and information seeking, and take action to resolve the behavior before it escalates; and
- Monitor and follow up with the situation after a complaint is made so as to prevent recurrence of the uncivil behavior.

VI. Complaint Review and Investigation Procedures

Complaint review and investigatory processes related to this policy will be conducted in a timely, fair, and objective manner in accordance with this policy. All Parties shall cooperate with any such complaint review and investigation process. Each party will participate at their own expense.

Individuals are encouraged, though not required, to informally resolve concerns whenever possible.

A. Informal Resolution

If feasible, the employee or third party who feels a violation has occurred may, though is not required to, have a conversation with the other individual(s) involved, including job Supervisors, Resident Engineers, Construction Managers, and responsible parties for contractors or vendor.

If a direct approach is not feasible or does not resolve the concern, employees or third parties are encouraged to meet with the Public Works Construction Supervisor or Manager to discuss next steps.

B. Formal Complaints

Any employee or third party may choose to initiate a formal complaint under this policy.

Complaints may be made orally, or in writing, free of any requirements as to form. They should be detailed enough to identify the behaviors of concern and the identity of the person or persons against whom the complaint is being made.

C. Complaint Investigation Process

Once an employee or third party has raised a complaint, a Public Works Construction Manager will evaluate it to determine whether it is appropriate for an investigation. If it is, an investigation plan will be developed which will include meeting with the affected employee(s), the alleged violating party, and any other relevant individuals to collect facts and develop information on the complaint and to review the circumstances under which the violation is alleged to have taken place. The standard of review will be a preponderance of the evidence, or more likely than not, standard. This process is designed to ensure a timely, fair and thorough investigation.

At the conclusion of the investigation, the outcome of the investigation will be shared with the affected parties. If the complaint is found supported, follow up corrective actions will be identified, up to and including removal of personnel from the jobsite per Section 5-1.17 of the Standard Specifications and/or termination of the contract per Standard Specifications 8-1.14. Failure to abide by this policy may be considered a material breach that could result in termination of a contract.

D. Prohibition Against Retaliation

Retaliation is prohibited against any employee or third party who initiates a complaint, reports an incident that may violate this policy, participates in an investigation related to a complaint, or is associated or perceived to be associated with a person who initiates a complaint or participates in the investigation of a complaint under this policy.

Retaliation is generally defined as any negative or adverse action taken against a current or former employee that takes the form of punishment, and creates a hostile, threatening or uncomfortable environment, as a result of their reported complaint.
