Subject: Public comment, closed session, BOS meeting of 2/10/26

Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

Hartmann must recuse herself from the closed session of 2/10/26. In addition to Hartmann, County Council should not participate, or give the Board any advice concerning the lawsuit to be discussed.

When County Council submitted the suspect map to the FPPC in May/June of 2025, County Council had full and complete access to tract and subdivision maps that directly contradicted the map and information submitted to the FPPC. Planning and Development was also aware of the tract and subdivision maps, as was Hartmann.

The Board must remove the entire County Council office from any involvement in all legal actions and discussions involving Sable Offshore. The County has been advised by past employees of the County Council's office to retain outside council.
