Cite specific CEQA Guideline Section 15301 (c) Existing Facilities – "...consists of the operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to:...(c) Existing highways and streets, sidewalks, gutters, bicycle and pedestrian trails, and similar facilities (this includes road grading for the purpose of public safety), except where the activity will involve removal of a scenic resource including a stand of trees, a rock outcropping, or an historic building".

Reasons to support exemption findings: The project is scheduled repair, maintenance and safety improvements and therefore is contemplated by the CEQA exemption under section 15301.
