*Thank you for helping keep our  
community safe!*

This is a fine example of the type of signage the county and city should be providing all businesses and posting on all public buildings throughout the city and county.

Customers have been made aware of the mask ordinance by the Home Improvement Center - not the Health Department, the BOS or the CC. Regular customers never show up without the appropriate mask on.

**FACE COVERING WITHOUT**

Note: The signage extends the length of the building where customers wait in line.

A monitor stands at the entry to make sure customers are wearing the correct mask .
