Subject: Goleta Beach 2.00

I support the Goleta Beach 2.0 project which will protect Goleta Beach Park in an environmentally responsible way. The project will add an acre of sandy beach to Goleta Beach Park, which will be open for public recreation, such as bird watching, beach parties, sun-tanning, and sand castle building.

Goleta Beach 2.0 maintains protections for the restaurant, while enhancing safe access for bikes, pedestrians, and autos, offering a new MTD bus stop, and providing overflow parking.

The project follows the advice of the Coastal Commission, which has ultimate approval authority.
