Subject: Item A-50: Definition of a tri county vendor? Is it really local?

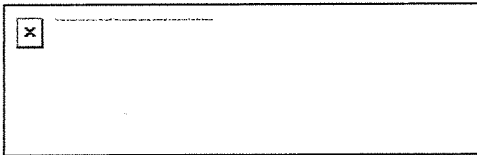

Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

Item A-50.....Geosyntec has offices all over the country and some overseas. Why would they be a tri county vendor? What does this really mean? A shell of an office? They are not HQ'd here....

A local team submitted on this project on the first solicitation but your deputy director decided to readvertise after verbally abusing the local team and not having good faith negotiations. Think of the environmental liability on this project? Lawsuits from landowners? This solicitation was an absolute farce. The county MO is just keep hiring publicly traded companies calling them TriCounty vendors and not supporting the true local companies.
