Dear Supervisors: This resolution on your administrative agenda is an important voice in the national conversation over abortion rights. We fully support the resolution and urge you to support it as well. While it might appear to be an empty gesture, it is more than merely symbolic. The vast majority of Americans, individually and through their local governments and civic organizations, must speak up and add their voices to preserve safe and legal access to abortion care.

Respectfully,  
*Richard Solomon and Jana Zimmer*
