Subject: Public Health Department Advice regarding COVID-19 precautions

Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

Dear Supervisors:

First, thank you for your previous policy decision regarding COVID-19 precautions that allowed either vaccination or testing for county employees. That decision allowed people to take personal responsibility for their health.

As of August 11, 2022, the CDC has revised their guidelines regarding COVID-19 health decisions. See the information from NPR using this link:
<https://www.npr.org/sections/health-shots/2022/08/11/1116991600/with-new-guidance-cdc-ends-test-to-stay-for-schools-and-relaxes-covid-rules>

I am asking the Board to reach out to Dr. Ansorg to update the COVID-19 health recommendations for Santa Barbara County to be in accordance with the new CDC guidelines.

Kind regards,

Gretchen Murray, Ph.D. (Pharmacology)
Retired Regulatory Affairs Director

With an update to the County recommendations, SBCC and UCSB would be able to relax their restrictions. I understand the SBCC is losing students due to the Board's restrictive policies.
