Hi there Carmela,

We find this curious as both Autumn Brands and G&K operations on Foothill have never been stinkier than the last week. Today was notably bad.
So whatever the County is doing under Ms.Plowman's leadership - such as granting licenses to unapproved systems -
is not working and worthy of investigation.

Hi Carmela,

In the Board letter for the April 7th meeting it is stated there potentially might be 16 operators that hadn't installed MTCF equipment or equivalent equipment by March 31, 2026. At the Board meeting on March 7th you stated that now 16 cannabis operators have installed MTCF or equivalent equipment and 9 letters were sent. Can you send me the names of the 9 cannabis operators that received notices of revocation of their business licenses? Also I'd like the names of the 7 who initially were included in the 16 potential but have now installed MTCF or equivalent equipment.

Thank you,
Anna Carrillo

hi Carmela,

Sadly, sending complaints via Planning & Development does nothing...and that would be for about five years now.

Such is the lack of community confidence in the county's P&D, that we know of almost no resident who bothers with the county's complaint form.

God love those that do!

We all know who the principal violators are - certainly the County does; But instead of odor enforcement, your P&D director, according to recent reporting, rewarded violators with licenses for unapproved odor technology that has woefully failed. And is failing today- now- as I write this. Take a drive along Foothill Road.

That's the issue.

We have arrived at a new juncture .

warm regards,

ALB

Much appreciated.
