Recommended Actions:

That the Board of Supervisors:

- a) Approve, ratify, and authorize the Chair to execute an agreement with the California Department of Pesticide Regulation (DPR) for the Agricultural Commissioner's Office (CAC) to be reimbursed for contracted activities pertaining to the collection of samples of fumigation tarpaulins for submission to the DPR laboratory for the period of April 15, 2017 through April 15, 2019 in the amount of \$4000.00; and
- b) Determine that the above action involves government funding mechanisms and/or fiscal activities and is not a project under the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines section 15378(b)(4).

Summary Text:

This item is on the agenda for the Board of Supervisors to review and execute an agreement with the DPR to receive reimbursement for the cost of all activities to collect samples of tarpaulins from DPR's Chloropicrin tarpaulin list used during field fumigant applications, obtain a copy of the Fumigant Management Plan and the Post Application Summary and submit the samples and information to DPR for analysis.

Background:

Over the past several years DPR has worked with CACs, the U.S. Environmental Protection

Agency (US EPA), pesticide registrants, and tarpaulin manufacturers to help protect human health. The results of this effort are the phase II soil fumigant labels, regulations, and suggested permit conditions. To ensure the protection of human health these newly implemented measures need to be evaluated to determine if they are being used correctly and if they are working.
