Subject: I support budgetary funding for a Countywide Recreation Master Plan

Caution: This email originated from a source outside of the County of Santa Barbara. Do not click links or open attachments unless you verify the sender and know the content is safe.

Dear Board of Supervisors –

I am writing today in support of budgetary funding for a Countywide Recreation Master Plan. As a resident of Santa Barbara County, I greatly value a healthy lifestyle that includes mountain biking and outdoor nature-based recreation. Santa Barbara County currently lacks trails designed specifically for mountain biking or trails appropriate for youth and beginning mountain bikers. Increasing trail access for cyclists in County Parks and Open Spaces would improve the quality of life in our community by providing additional venues for positive outdoor recreation in our public spaces.

Thank you for your consideration.

Respectfully,

Ben Ellenberger, Santa Barbara

Dear Board of Supervisors –

I am writing in support of budgetary funding for a Countywide Recreation Master Plan.

As a resident of Santa Barbara City and County, one of my primary forms of land based recreation is mountain biking. Santa Barbara County currently has a dearth of trails designed specifically for mountain biking and trails appropriate for youth and beginning mountain bikers. Increasing trail access for cyclists in County Parks and Open Spaces would improve the quality of life in our community by providing additional venues for positive outdoor recreation in our public spaces.

Thank you for your consideration.

Cheers,
John Dutton

Dear Board of Supervisors –

I am writing today in support of budgetary funding for a Countywide Recreation Master Plan.

As a resident of Ventura County, who visits Santa Barbara often to ride the few trails you have and then goes on to support the local economy over lunch and beers, I greatly value a healthy lifestyle that includes mountain biking and outdoor nature-based recreation. Santa Barbara County currently lacks trails designed specifically for mountain biking or trails appropriate for youth and beginning mountain bikers. Increasing trail access for cyclists in County Parks and Open Spaces would improve the quality of life in our community by providing additional venues for positive outdoor recreation in our public spaces.

Thank you for your consideration.

Increasing trail access for cyclists in County Parks and Open Spaces would improve the quality of life in our community by providing additional venues for positive outdoor recreation in our public spaces.

We already are a destination for road cyclists who contribute greatly to our local tax revenue and local businesses. Adding more mountain biking will only draw more people to our community. After the debris flow this is a great opportunity to build trails the right way, and to make the current trails safer for all user types. Many other areas have taken to building cycling specific trails with great success. This ranges from one way trails to mountain bike parks.

Let's get up to speed with other communities in California and not be left behind.

Thank you for your consideration.

Respectfully,
Jon McCuskey
