We need to protect our natural resources. I have always loved the ocean, it has significance to me personally since childhood. Being able to go to the sea and exist in its beauty has directly improved my mental health. So please consider the wildlife, beauty, and well being of the local people. Thank you

For these reasons as well, please consider :

- The Naples property is exceptionally important to the public, given its unmatched scenic, ecological, cultural and recreational value
- The Developer has not met its creek restoration obligations and has not complied with the Development Agreement.
- The Board must enforce the Development Agreement to ensure the County – and the public – receives the benefit of its bargain.
- Allowing development of the 49-unit Inland Santa Barbara Ranch Project under 2008 rules is not in the public's interest.
- The Board should start the process of terminating the Development Agreement.

SAVE THE COAST!! <3

Dear County Board of Supervisors,

I strongly believe as a Santa Barbara native that it is a huge part of our supervisor's duties to do what is best for our communities and homes, especially any and all environmental related projects that DIRECTLY impact all of us living here. Not just for our current generation, but for generations to come.

It is this reason why I write to you today.

The Naples property is exceptionally important to the public, given its unmatched scenic, ecological, cultural and recreational value.

The Developer has not met its creek restoration obligations and has not complied with the Development Agreement.

The Board **must** enforce the Development Agreement to ensure the County – and the public – receives the benefit of its bargain.

Allowing development of the 49-unit Inland Santa Barbara Ranch Project under 2008 rules is not in the public's interest. The Board should start the process of terminating the Development Agreement.

This is SO critical. We saw earlier this year how much our community deeply cares about our local lands and protecting the environment, and keeping it out of financial interests with the Foothills Forever Campaign.

PLEASEEEEE please, I urge you to protect these critical lands and start the process of terminating the development agreement.

Thank you.

With Much Gratitude,

Torrie Cutbirth
