

Regarding "Water" Hearing on July 18, 2017, Santa Maria, Ca.

**My Concerns: Adjudicated Properties
Private Subdivision Water Well Rights for Agriculture
Water Well Permitting**

I have a concern that when we go in for help with a project, that the County doesn't have copies of our Water Well Permits. We have to produce them, even though we have approved subdivisions. What happens to approved water well permits.

Thank you for your consideration.
