Summary Text:

This item is on the agenda to rescind parking restrictions and establish new angle parking zones on Broadway in the Fourth Supervisorial District.

Proposed Parking Restrictions

Pursuant to County Code 23-11 and California Vehicle Code Sections 22503, 22507 and 22511.7 the Board of Supervisors, by Resolution may regulate vehicle parking on certain streets or highways, or portions thereof, during all or certain hours of the day.

• **Broadway – Fourth Supervisorial District**

Public Works recommends that your Board rescind the existing parking restrictions on the west side of Broadway north of Clark Avenue, and adopt the proposed angle parking on both sides of Broadway between Clark Avenue and Park Avenue in the Fourth Supervisorial District (Vicinity Map 1). Broadway is a 60-foot wide, two lane road with fronting businesses on both sides of the road, located in the unincorporated area of Orcutt. A request came in to change the on-street parallel parking to angle parking on Broadway north of

Clark Avenue to increase the parking capacity. Public Works reviewed the location and found it acceptable. Public Works also determined that the time limited parking zones on the west side of Broadway north of Clark Avenue are no longer needed and recommends their removal.

The Public Works Department prepared the attached Resolutions to rescind and adopt the various traffic controls at the following locations:

FOURTH DISTRICT – Unincorporated Area of Orcutt

RESCIND

Time Limited Parking Zone:

- On the west side of North Broadway between its intersection with the north boundary of Clark Avenue and a point 50 feet northerly thereof, establish a 15-minute parking zone.
- On the west side of Broadway from a point 60 feet north of the centerline of Clark Avenue to a point 106 feet north of the centerline of Clark Avenue, establish a 1-hour parking zone.

ADOPT

Angle Parking Zone:

- On the west side of Broadway from the centerline of Clark Avenue to a point 359 feet north of the centerline of Clark Avenue.
- On the east side of Broadway from the centerline of Clark Avenue to the centerline of Park Avenue.

Background:

Intersection controls and parking restrictions are established based on safety, necessity, and community benefit. Public Works weighs all of these factors and presents any recommended changes to your Board for approval. These parking restrictions may include, but are not limited to “No Stopping, Standing, or Parking”, “Time Limited” parking, “Loading” zones, “Vehicle Height Restricted” parking, “Angle” parking, “Handicapped” parking, or any combination of restrictions.

Public Works has surveyed the proposed traffic control locations described in this Board Letter, and found it to be in the best interest of the communities and the traveling public to install the proposed traffic controls. Public Works recommends your Board’s approval of the attached Resolutions to implement these traffic controls. The proposed actions are for the operation and maintenance of an existing public facility, involving negligible, or no expansion of use beyond that which presently exists, therefore exempt from California Environmental Quality Act pursuant to 14 CCR 15301, and do not require approval of the California Environmental Quality Act.
