Subject: September 15th Meeting

To County Board of Supervisors,

On Tuesday, Sept 15, I understand that Supervisors Carbajal and Wolf will be presenting a resolution to commend the "great" works of Planned Parenthood.

I understand Planned Parenthood supported Supervisor Wolf in her election bid, but this is no reason to commend an organization that participates in the vile practice of selling baby parts.

I am asking for this resolution to **not** be put forth. The selling of baby parts is detestable, something that should be stopped, and certainly not commended.

If this resolution goes forward, I will remember this at election time, and vote accordingly.

Sincerely,

Paula Tolan
