RE: Short-Term Rental Ordinance to be Voted on December 6th, 2016

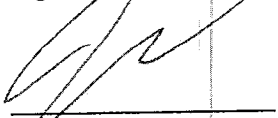

Please vote NO on the proposed Short Term Rental Ordinance

Santa Barbara County short-term rental Guests eat at our restaurants, tour our attractions, and shop at our stores & boutiques. The proposed ban on virtually all short-term rentals in Santa Barbara County is a drastic measure that will not solve any problems, and will destroy a large part of our tourism economy. Most of these guests will never stay in hotels. If STRs are prohibited, they will take their business to other communities. Even if corrective measures are taken later, it will take years to regain our County's tourism reputation.

Thank you for your consideration.

RE: Short-Term Rental Ordinance to be Voted on December 6th, 2016

Please vote NO on the proposed Short Term Rental Ordinance

Santa Barbara County short-term rental Guests eat at our restaurants, tour our attractions, and shop at our stores & boutiques. The proposed ban on virtually all short-term rentals in Santa Barbara County is a drastic measure that will not solve any problems, and will destroy a large part of our tourism economy. Most of these guests will never stay in hotels. If STRs are prohibited, they will take their business to other communities. Even if corrective measures are taken later, it will take years to regain our County's tourism reputation.

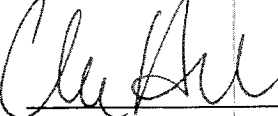

Thank you for your consideration.
