Reference: AB 199 Backfill Allocation Spending Report for Fiscal Years (FY) 2021-22 and FY 2022-23 from Criminal Justice Fees Eliminated in AB 177

Dear Mr. Hemann, Ms. Lee, and Mr. Stephenshaw:

Please find attached the Santa Barbara County Board of Supervisors (Board) submission of the above referenced report. As required by Government Code section 29554 subsection (f), the attached report details the County of Santa Barbara's spending of the State backfill allocation by Chapter 57 of the Statutes of 2022 (AB 199) for revenues lost from fees repealed by Chapter 257 of the statutes of 2021 (AB 177).

Sincerely,

Steve Lavagnino, Chair
Santa Barbara County Board of Supervisors

Enclosure: AB 199 (Chapter 57, Statutes of 2022) Backfill Allocation Spending Report for Fiscal Year (FY) 2021-22 and FY 2022-23 for Criminal Justice Fees Eliminated in AB 177 (Chapter 257, Statutes of 2021)

CC: Santa Barbara County Board of Supervisors

County of Santa Barbara
For the Fiscal Year Ending June 30, 2023

AB 143 (Chapter 79, Statutes of 2021) Backfill Allocation Spending Report for Fiscal Year (FY) 2022-23
for Criminal Justice Fees Eliminated in AB 1869 (Chapter 92, Statutes of 2020)

Total annual budget for each county department that receives any backfill allocation.	Share of allocation received for all recipients and allocation amounts.	Expenditures of the allocation for each county department that receives a share of the total allocation.	A detailed description of the programs, services, strategies, and enhancements supported by or made with the allocation by county department.
The FY 2022-23 Adopted Budget for Probation Department is \$79,562,500.	The Probation Department received \$650,000 (77%) of the total \$846,777.76 backfill.	The Probation Department spent the entire allocation of \$650,000 on adult supervision and investigation staff salaries and benefits.	<p>The allocation was used to fund current salaries and benefits of adult investigation and supervision staff that were previously partially funded by the fees repealed under AB1869. The use of these funds reduced the need to eliminate positions due to the loss of revenue.</p> <p>Historically, the monies collected from fines and fees were used in part to support salaries and benefits for officers assigned to complete reports for the courts and to officers who supervise non-realigned clients (those for whom the department does not receive AB 109 realignment funding). With the implementation of AB 1869, most fines and fees were eliminated and the debts associated with them were discharged. The resulting decrease in the department's budget would have meant the elimination of numerous positions in court services and supervision, diminishing the ability of the department to provide pre- and post-sentence and pre-plea reports to the courts, as well as reducing the amount of community supervision the department could perform, which would impact public safety.</p>
The FY 2022-23 Adopted Budget for Sheriff's Office is \$184,358,900.	The Sheriff's Office received \$196,777.76 (23%) of the total \$846,777.76 backfill.	The Sheriff's Office spent the entire \$196,777.76 on adult supervision programs, including staff salaries and benefits as well as program costs such as GPS electronic	<p>The allocation was used to offset the loss of revenues for program fees and to maintain the staffing that was partially funded by program revenue.</p> <p>The Sheriff's Office Alternative Sentencing Bureau (ASB) provides a means for sentenced offenders to serve their jail sentences outside of physical incarceration within the jail. ASB staff review and process applications for inmates currently in the county jails who may have just been sentenced or have been sentenced previously, but may not have initially qualified for alternative sentencing at the start of their sentence. ASB staff actively recruit the sentenced inmate population and encourage those</p>

		monitoring services.	who may be eligible for alternative sentencing to apply. This process requires staff inside both county jail facilities to speak with potential applicants on a weekly basis. Staff also work with the County's Probation Department to actively monitor the behavior of those currently out on the EM (electronic monitoring) program, as well as those actively serving their sentences on SWAP (Sheriff Work Alternative Program). All of the staff positions currently allocated are necessary to help reduce the jail population while maintaining public safety. By removing staff positions, the jail average daily population would rise, exacerbating jail overcrowding and staffing issues.
