

General Public Comment-KARIN HAUENSTEIN

I am here today speaking about the fact this County has been housing male inmates who "identify" as female inside the jails.

These individuals, with penises, are showering in full view of female inmates.

This is just sick.

There are so few of these "trans" or "transitioning" or conveniently protected confused individuals---I would like to know, from Bill Brown himself, why they cannot be housed individually???

I have interviewed several women who were housed with "trans" people who have penises. They report that they feel sickened and ashamed of this entire experience.

When you hold women captive, and force them to view penises they don't want to see---isn't that sexual abuse?

I do not care about the fact a liberal majority pushed through illegal "laws" in our State to push their strange agendas. I care about our rights.

For the same reason a man has the right to say he wants to look like a female, women have the right not to look at naked penises in jail.

Stop being corrupt to allow this hypocrisy.

Is the custody staff laughing at the disgust and frustration shown by the females in custody who have to witness this issue, or are they similarly disgusted?

Please instruct Bill Brown to disallow the opportunity for men to expose their naked penises to female inmates in custody.

It IS sexual abuse. Stop being abusive.

Ok. On the flip-side. If I want to claim I identify as a man is Bill Brown going to throw me into a jail pod with men?

Then why is this happening to the female inmate population???

I feel you are just abusing them more.

Should identified abuses be tolerated at all?

To continue shaming female inmates this way is CERTAINLY Wolf-Pack mentality and behavior.

BE SURE TO GO TO **COAST AUDITS** ON YOUTUBE.

If you know of similar abuse, report it.

Good morning Chair Capps and Supervisors,

My name is Violet Sophia Grace Hauenstein. I live in Lompoc Valley.

I am here today because **of a** conflict YOU have allowed to develop in our schools here in Santa Barbara County.

Right now, I am anxious and afraid to perform my Physical Education class at Vandenberg Middle School.

There is a problem with allowing boys, to be specific **humans** with XY chromosomes, into the girls locker rooms at our school.

While I was changing my clothes, I was noticed by 3 students, one of them is a boy who "identifies" as female. He is not female. He does not have XX chromosomes.

It is a fact that boys, having XY chromosomes, often behave more aggressively than females.

This boy body-shamed me and started a conflict with me in the locker room. This embarrassed me publicly and personally.

My other females peers witnessed this and they were visibly uncomfortable and so was I.

Now, I feel like girls are being watched and humiliated by a boy when we are undressed.

This is a violation of my personal and civil rights.

We are NOT in a public space. We are changing our clothes.

Why is this being allowed at all? It hurts me and other female peers.

I want to know what this Board of Supervisors is going to do about the fact I am now anxious and afraid.

It seems like you don't care about my privacy.

What about my self-esteem and my body image?

I am not trying to be political or rude to him but this really needs to go back to the way it used to be.

I feel like I am not being protected by my Civil Rights. I feel like there are no rules.

Thank you for your time and consideration.
