Dear County Board of Supervisors,

In light of the recent national accusations and concerns regarding the use of the Dominion Voting Machines to count the vote in our 2020 General Elections, I am asking the Board of Supervisors to delay the certification of the vote. Please require the Elections Office to not destroy any of the ballots or change the settings on the Dominion or Agellus equipment in case there would be a National Investigation of these machines used throughout the United States. In California, we are one of 40 Counties using this equipment. To restore local confidence in the results of the election and not to suppress our local citizens rights, the County Board of Supervisors can delay the certification until these issues and claims have been vetted.

Please delay the certification of the 2020 General Election in Santa Barbara County until we understand fully the consequences of using the Dominion Machines for counting our local vote.

Thank you,

Bobbi McGinnis
Chairwoman
Santa Barbara GOP
