Hello,

I support Alignment B of the Modoc Multi-Use Path because:

Safety for our community and travelers passing through is a priority to me. I want the fewest trees removed and plan B does that. It is also safest for school children. The suggested alternative that goes through the school parking lot is not safe for the other abled and I understand cuts down more trees. Let's work together as a community to find the best solution for all. The preserve could have stopping places for bicyclists and others along the way to commune with nature along the plan B route (not required; just an idea). I am an avid bicyclist and I look forward to using this connecting route.

Hello,

I support Alignment B of the Modoc Multi-Use Path because:

REMOVE the trees and plant new ones so the tree-huggers will have something to hold onto. We need a safe bike path along Modoc!!
