Subject: RE: 17-00228 and 17-00256

To Whom It May Concern,

We are writing the Board of Supervisors to urge the adoption of the Interim Urgency Ordinance for nonmedical marijuana. As residents of Tepusquet Canyon, a quiet, safe rural community set in the delicate oaklands of the Coastal Ranges in Santa Barbara County, we have great concerns for our community, our way of life, our ecology, and our safety should a new commercial crop like marijuana exploit our environment and neighborhoods. Any cannabis land use without vetted, tested, and strong local, state, and federal regulations presents major disruptions and issues to our community which we will challenge with our voices and our votes. Even the existing and limited presence of the industry in our communities has already posed threats to our livelihood, environment, and even our lives. We urge the Board to adopt any resolution that allows for a thoughtful, reasoned, and fully-vetted approach to the impact of this crop and related activities on fire safety, crime, water use, pesticides, and commercial and laborer traffic on ours and any Santa Barbara County neighborhood.
