Andy,

When you state "I would hope get everything resolved by then.", I hope you are correct. Hopefully the facilitation meeting on August 10th will be successful. Otherwise, we'll be forced to go forward to the Board of Supervisors.

I'm sorry you are having family-related issues and wish you good luck in resolving your emergencies. Nobody likes dealing with situations like that. However, I can't hold up the BOS appeal hearing until October unless directed by Salentine. Appeals such as this must be carried forward in a timely manner to the Board for final action. The applicant is certainly entitled to a timely process, especially after being granted a unanimous decision at the Planning Commission. Let's hope that the appeal is resolved or you are able to clear up your family issues soon.

I'll be in further contact...

Best wishes,

Errin Briggs, Planner

Errin

We have a mediation meeting on 10 Aug with count counsel Mary McMaster. I would hope get everything resolved by then. We have been in NY dealing with a couple family emergencies. Should be back by the 10th of August but we will probably have to go back in September and since it involves elder abuse and misappropriation of land and substantial sums of money for both Jessica and myself we both need to be there. I hope to have that cleared up by mid October.

Andy
