If so required, GRANTEE shall obtain permits to proceed with any construction on the Property from the appropriate governmental agencies, and shall provide copies of said permits and provide copies of GRANTEE'S work plans to the County Architect prior to the commencement of work.

Except in case of emergency or routine pipeline maintenance, GRANTEE shall give GRANTOR and any tenants on the Property no less than five (5) business days written notice prior to the commencement of any work in, on, or about the Property. In no way shall routine pipeline maintenance interfere with regular scheduled activities of GRANTOR or GRANTOR'S tenants. GRANTEE, its authorized agents, employees and contractors shall replace, restore and/or repair any improvements and/or vegetation on the Property, damaged, destroyed, or removed as a result of the rights granted under this Easement to as near the original condition and location as is reasonably practicable.

GRANTEE shall indemnify, save and hold harmless GRANTOR, its agents, employees, officers, tenants, successors and assigns from any and all claims, liabilities, demands, costs (including reasonable attorney fees), and causes of action of all kinds arising out of the GRANTEE'S access, installation, construction, reconstruction, operation, maintenance, enlargement, replacement or repair of its pipeline(s) and/or related facilities in the Easement area, including but not limited to contamination by harmful, hazardous and/or toxic materials, if any.

In the event the indemnity hereunder exceeds that permitted by applicable law, such indemnity shall be construed as the maximum permitted by law. This indemnity shall not apply to any contamination which may occur in the Easement area as a result of the operations of GRANTOR either before or subsequent to the effective date of this Easement Deed.
