### **Brief Description- Regional Technical Assistance for Home Visiting Coordination and Integration (HV-RTA)**

In October 2019, the F5CA State Commission (Commission) approved up to \$24 million in funding for five years through Fiscal Year 2024–2025 to help counties create a sustainable, unified system that supports families with the home visiting services they need and maximize available funding to serve more families. This catalytic funding is meant to promote increased coordination and collaboration and is expected to yield significant systems changes. Between 2020 and 2022, 50 counties received approximately \$9 million of funding to develop or strengthen a cross-agency, cross-system understanding of the role home visiting plays in supporting family well-being, increase access to culturally and linguistically responsive home visiting, and integrate home visiting into other child- and family-serving systems. This RFA continues and expands that work.

The purpose of this grant is to empower counties to continue their work creating a sustainable, unified system that supports families with the home visiting services to support family well-being and maximize available funding to serve more families.

The RFA also works to promote group, individual, and peer-to-peer technical assistance to help counties continue strengthening a range of systems coordination and integration activities, highlight lived-experience in policies and program decisions, and address inequities. The Grantee must serve all local counties within the region interested in carrying out HVC activities during the term of the grant.
