EMERGENCY PERMIT

Date: February 15, 2017

Permit No.: G-4-17-0011

Applicant/Location: Goleta Sanitary District/Goleta Beach County Park

Work Proposed: Placement of approximately 20 tons of rock approximately 20 ft. long by 4 ft. deep by 5 ft. high adjacent to an approximately 50 ft. long by 7 ft. deep by 5 to 6 ft. high rock revetment that was previously installed pursuant to an emergency action on January 25, 2017 at Goleta Beach. The rock will be placed to fill a void next to the existing revetment that formed since January 25, 2017 in order to protect the Goleta Sanitary District sewer vault. A single excavator will be used to install the rock. Construction will occur during low tide and will be performed over 2 hours.

This letter constitutes approval of the emergency work you or your representative has requested to be done at the location listed above. I understand from the information submitted that an unexpected occurrence in the form of erosion at Goleta Beach as a result of high tides and storm swells is threatening the structural integrity of Goleta Sanitary District's ocean outfall access sewer vault. Large swells are forecasted for Friday, February 17 through February 22, and due to low existing sand volumes at Goleta Beach, there is a high potential for significant erosion and damage to the vault. These occurrences require immediate action to prevent or mitigate loss or damage to life, health, property or essential public services. 14 Cal. Admin. Code Section 13009. The Executive Director hereby finds that:

- (a) An emergency exists which requires action more quickly than permitted by the procedures for administrative or ordinary permits and the development can and will be completed within 30 days unless otherwise specified by the terms of the permit;
- (b) Public comment on the proposed emergency action has been reviewed if time allows; and

The work is hereby approved, subject to the conditions listed on the reverse.

Sincerely,

John Ainsworth
Executive Director

Title: Deputy Director

CONDITIONS OF APPROVAL

1. The enclosed form must be signed by the applicant and returned to our office within fifteen (15) days.
2. Only that work specifically described above and as more specifically described in the Commission's file for this Emergency CDP Application, is authorized for the specific property listed above, subject to the conditions set forth below. Any additional work requires separate authorization from the Executive Director.
3. The work authorized by this permit must be completed within thirty (30) days of the date of this permit, or as extended by the Executive Director through correspondence, and shall take place in a manner to minimize any potential damages to any resources, including intertidal species, and to minimize impacts to public access.
4. Construction materials, equipment, or debris shall not be stored where it will be or could potentially be subject to wave erosion and dispersion. In addition, any debris from Goleta Sanitary District or adjacent park facilities that resulted from the recent storms shall be removed from the beach and disposed of properly.
5. In exercising this permit, the applicant agrees to hold the California Coastal Commission harmless from any liabilities for damage to public or private properties or personal injury that may result from the project.
6. The work authorized by this emergency permit is temporary, unless permanent retention of the development is authorized through the issuance of a regular Coastal Development Permit from the California Coastal Commission. By March 31, 2017, the permittee shall submit a complete application for a regular coastal development permit to have the emergency work be considered permanent. If no such application is received, the emergency work shall be removed in its entirety within 120 days of the date of this permit unless waived by the Executive Director.
7. This permit does not obviate the need to obtain necessary authorizations and/or permits from other agencies.
8. No machinery will be allowed in the subtidal zone at any time. The permittee shall immediately remove from the beach area any and all debris that results from the construction activities.

IMPORTANT

The emergency work is considered to be temporary work done in an emergency situation. If the applicant wishes to have the emergency work become a permanent development, a coastal permit must be obtained. A regular permit would be subject to all of the provisions of the California Coastal Act and may be conditioned accordingly. These conditions may include provisions for public access and/or a requirement that the applicant assume all liability for damages incurred from storm waves.

RE: Emergency Permit No. G-4-17-0011

INSTRUCTIONS: After reading the attached Emergency Permit, please sign this form and return to the South Central Coast District Office Office within 15 working days from the permit's date.

I hereby understand all of the conditions of the emergency permit being issued to me and agree to abide by them. I also understand that the emergency work is TEMPORARY and that a regular Coastal Development Permit is necessary for any permanent installation and must be submitted by March 31, 2017 or I will remove the emergency work in its entirety within 120 days of the date of the emergency permit (i.e., by March 31, 2017). Finally, I understand that my failure either to:

- a) submit a complete follow-up Coastal Development Permit (CDP) Application that satisfies the requirements of Section 13056 of Title 14 of the California Code of Regulations by the date specified in this Emergency Permit, which date may be extended by the Executive Director for good cause, or
- b) Remove the emergency development and restore all affected areas to their prior condition after consultation with Coastal Commission staff as you identified consistent with the Coastal Act, will constitute a knowing and intentional violation of the Coastal Act and may result in formal enforcement action by the Commission or the Executive Director.

In some instances, a permit may be required for removal (if required by this Emergency Permit) by the date specified in this Emergency Permit. This formal action could include a recordation of a Notice of Violation on my property; the issuance of a Cease and Desist Order and/or Restoration Order; imposition of administrative penalties for violations involving public access, and/or a civil lawsuit, which may result in the imposition of monetary penalties, including daily penalties of up to \$15,000 per violation per day, and other applicable penalties and other relief pursuant to Chapter 9 of the Coastal Act. Further, failure to follow all the terms and conditions of this Emergency Permit will constitute a knowing and intentional Coastal Act violation.
