Subject: Gaviota Coast Plan - Too much development.

Dear Board of Supervisors,

The Gaviota Coast is an ecologically and culturally significant part of Santa Barbara's community that must be preserved for future generations. Please strengthen the Gaviota Coast Plan's policies to:

Prohibit the use of all fracking, steam injection, and enhanced oil and gas recovery methods in the Gaviota Coast Plan area;

Protect Gaviota's Environmentally Sensitive Habitats ("ESH") from land clearing by amending the Gaviota Plan ESH Ordinance to protect these habitats from new and expanded large scale agricultural activities;

Strengthen the Incentives Program by ensuring additional homes cannot be built until the trail easement is open and accessible to the public; and

Ensure that the Plan complies with the Coastal Act so it can be certified by the Coastal Commission.

Thank you for taking the time necessary to ensure the Plan protects all of Gaviota's precious resources for the entire community.

Sincerely,

Benny Drescher

Subject: Gaviota Coast Plan

Dear Board of Supervisors,

As a former resident of the Gaviota Coast and as a commuter who passes through this lovely, uniquely unspoiled bit of California coastline, I am very concerned that we need to protect this land for future generations to enjoy. The Gaviota Coast is an ecologically and culturally significant resource. It is part of Santa Barbara's community and not something that should be compromised just to serve the needs of greedy developers.

I urge you to strengthen the Gaviota Coast Plan's policies to:

- Prohibit the use of all fracking, steam injection, and enhanced oil and gas recovery methods in the Gaviota Coast Plan area;*
- Protect Gaviota's Environmentally Sensitive Habitats ("ESH") from land clearing by amending the Gaviota Plan ESH Ordinance to protect these habitats from new and expanded large scale agricultural activities;*
- Ensure that the Plan complies with the Coastal Act so it can be certified by the Coastal Commission.*

Thank you for taking the time necessary to ensure the Plan protects all of Gaviota's precious resources for the entire community.

Sincerely,

Dear Board of Supervisors,

I've been enjoying this coastline with my family as far back as I can remember (30 + years) Now with a family of my own I hope to share the beauty of this area with them for many years to come.

The Gaviota Coast is an ecologically and culturally significant part of Santa Barbara's community that must be preserved for future generations. Please strengthen the Gaviota Coast Plan's policies to:

- Prohibit the use of all fracking, steam injection, and enhanced oil and gas recovery methods in the Gaviota Coast Plan area;*

Subject: Strengthen the Gaviota Coast Plan!

Dear Board of Supervisors,

I live in Ventura, however, I often travel up to Santa Barbara and the Gaviota Coast to experience the beauty of the coastline, there's none like it. It's important to me to protect and preserve the coastline. It is an ecologically and culturally significant part of Santa Barbara's community that must be preserved for future generations and those, like myself, who frequent the area to experience its beauty. You have the opportunity to protect this place, please strengthen the Gaviota Coast Plan's policies to:

- Prohibit the use of all fracking, steam injection, and enhanced oil and gas recovery methods in the Gaviota Coast Plan area;
- Protect Gaviota's Environmentally Sensitive Habitats ("ESH") from land clearing by amending the Gaviota Plan ESH Ordinance to protect these habitats from new and expanded large scale agricultural activities;
- Strengthen the Incentives Program by ensuring additional homes cannot be built until the trail easement is open and accessible to the public; and
- Ensure that the Plan complies with the Coastal Act so it can be certified by the Coastal Commission.

Thank you for taking the time necessary to ensure the Plan protects all of Gaviota's precious resources for the entire community.

Kindly,
Alison Huyett

Subject: Gaviota Coast Hearing Nov 8th

Dear Supervisors:

Help Preserve the Gaviota Coast!

Please adopt the Plan with changes that improve the balance between agriculture and resource protection, strengthen visual protections, and prevent inappropriate industrialization.

I cannot thank you enough. This coast is precious to me and so many others.

Sincerely
Cathy Karol-Crowther
