

**RESOLUTION OF THE BOARD OF DIRECTORS OF THE  
SANTA BARBARA COUNTY FLOOD CONTROL &  
WATER CONSERVATION DISTRICT  
STATE OF CALIFORNIA**

**IN THE MATTER OF APPROVING THE )  
GOVERNADOR DEBRIS BASIN MODIFICATION )  
PROJECT TO RECEIVE GRANT FUNDING )  
FROM THE CALIFORNIA DEPARTMENT OF ) RESOLUTION NO. \_\_\_\_\_  
FISH AND GAME )**

**WHEREAS**, the Santa Barbara County Flood Control & Water Conservation District has designed a project to modify the Gobernador Debris Basin to provide more suitable condition for fish passage.

**WHEREAS**, the California Department of Fish and Game has approved grant funding in the amount of \$998,900 to the Santa Barbara County Flood Control & Water Conservation District as part of the Fisheries Restoration Grant Program pursuant to Fish and Game Code Section 1501.5 (b) to modify the Gobernador Debris Basin to improve outlet works for better performance of the basin as a flood control facility and allow fish passage.

**WHEREAS**, the Santa Barbara County Flood Control & Water Conservation District has approved the Gobernador Debris Basin Modification Project and has agreed to the terms and conditions as outlined in the California Department of Fish and Game Grant Agreement attached hereto as **Exhibit A**;

**NOW THEREFORE**, The Board of Directors does resolve as follows:

1. Approve the Gobernador Debris Basin Modification Project.
2. Agree to the terms and conditions of the California Department of Fish and Game Grant Agreement as outlined in **Exhibit A**.
3. Authorize the Public Works Director or his designee to execute the California Department of Fish and Game Agreement and all subsequent agreements or amendments to receive grant monies.
4. Designate the Civil Engineering Manager as the Project Manager.

RESOLUTION OF THE BOARD OF DIRECTORS  
COUNTY OF SANTA BARBARA  
STATE OF CALIFORNIA  
PAGE TWO

**PASSED, APPROVED, AND ADOPTED** by the Board of Directors of the Santa Barbara County Flood Control & Water Conservation District, State of California, on this \_\_\_\_\_ day of \_\_\_\_\_, 2008 by the following vote:

**AYES:**

STATE OF CALIFORNIA  
THE RESOURCES AGENCY  
DEPARTMENT OF FISH AND GAME

Pursuant to Fish and Game Code Section §1501.5 (b), this Grant process disburses funds for restoration projects approved by the Director of the Department of Fish and Game. This Grant Award is subject to the following conditions.

1. This Grant is made to the County of Santa Barbara – Water Resources Division, hereinafter referred to as the "Grantee," by the Department of Fish and Game hereinafter referred to as the "Grantor."
2. The Grantee agrees to provide all labor, materials, tools, permits, and incidentals necessary to complete the Gobernador Debris Basin Modification Project, in accordance with Exhibit A, which is attached and made a part of this Grant by this reference.
3. This Grant shall be effective from May 1, 2008 through April 15, 2010. The Grantee should be aware that time is of the essence and the Grantor expects work will be started during the first available field season, or as soon as practicable.
4. This Grant shall not exceed \$988,900.00, including all taxes, licenses and fees in accordance with the budget detail outlined in Exhibit B, which is attached and made a part of this Grant by this reference.

**GRANTOR – State of California**

**GRANTEE -**

Department of Fish and Game

County of Santa Barbara-Water Resources Division

Terry Jordan

Scott McGolpin, Director of Public Works

Printed Name of Person Signing

Date

5. The budget in Exhibit B is an estimate of the Grantee's project costs. If required by actual costs, the Grantor may approve and reimburse expenditures in any of the budgeted categories in excess of the estimated costs provided there are offsetting, decreased expenditures in any other budgeted categories. Such requests for budget category changes must be made in writing to the Grant Manager. Any cumulative budget category shifts in excess of 10% will require a formal amendment hereto.
6. The Grantor's Grant Manager is: Mary Larson, Department of Fish and Game, 4665 Lampson Avenue, Suite C, Los Alamitos, CA 90720, Telephone (562) 342-7186, Fax (562) 342-7153, e-mail: [mlarson@dfg.ca.gov](mailto:mlarson@dfg.ca.gov). The Grant Manager may be changed at any time by Grantor providing a ten (10) day advance written notice to the Grantee.

7. The Grantee's Project Manager is: Mr. Jon Frye, County of Santa Barbara-Water Resources Division, 123 E. Anapamu Street, Santa Barbara, CA 93101, Telephone (805) 568-3444, Fax (805) 568-3434, e-mail: [jfrye@co.santa-barbara.ca.us](mailto:jfrye@co.santa-barbara.ca.us). The Grantee's Project Manager may be changed at any time by the Grantee by providing a ten (10) day written notice to the Grantor.
8. Prevailing wages may be required to be paid on certain types of projects, typically Public Works projects. Existing law defines "public works," as, among other things, construction, alteration, demolition, installation, or repair work done under contract and paid for in whole or in part out of public funds.

California Fish and Game Code section 1501.5 exempts from the prevailing wage requirements, contracts with public agencies, nonprofit organizations, or Indian tribes that exceed \$50,000 in cost, excluding the cost of gravel. In addition, State Legislature passed Assembly Bill 2690, which amended Labor Code section 1720.4, to exclude most work performed by volunteers from the prevailing wage requirements.

Any questions of interpretation regarding the Labor Code should be directed to the Director of the Department of Industrial Relations, the State department having jurisdiction in these matters. You may also refer to the Department of Industrial Relations (DIR) website at <http://www.dir.ca.gov>.

9. No work can be performed until the Grantee has received:
  - A. An executed copy of this grant; and
  - B. A formal "Notice to Proceed" including written notification from the Grant Manager verifying that the project has been reviewed and approved pursuant to the California Environmental Quality Act for any applicable project.
10. This Grant does not constitute approval of the project or of any specific project features for purposes of compliance with any state or federal environmental law, including but not limited to the California Environmental Quality Act. Independent review and recommendation will be provided by the Grantor as appropriate on those projects where local, state, or federal permits or other environmental compliance is required.
11. It will be the responsibility of the Grantee to obtain all permits and make all arrangements necessary for its performance hereunder. Written permission must be obtained from landowner(s) for access to perform grant work.
12. No property will be purchased with funds provided by the Grantor under this grant without prior approval of the State. The Grantor does not have responsibility for loss or damage to rented equipment arising from causes beyond the control of the Grantor. The Grantor's responsibility for repairs and liability for damage or loss is restricted to that made necessary by or resulting from the negligent act or omission of the Grantor or its officers, employees, or agents.

For the purpose of this Grant, "equipment" shall be defined as tangible property (including furniture) with a unit cost of \$5,000.00 or more and a useful life of four (4) years or more. Actual cost includes the purchase price plus all costs to acquire, install and prepare the equipment for its intended use.
13. The Grant Manager may require the Grantee to submit progress reports as often as deemed necessary, but not more often than once a month. If the project is not completed in the current year, the Grantee will submit a summary of the completed portion no later than November 30 and again each year until completed.

14. Grant disbursements will be made to the Grantee in arrears, upon receipt by the Grant Manager of an original itemized invoice. Invoices may not be submitted more frequently than monthly, in arrears, with the exception of the invoice for final retention (see #17). The invoice shall contain the following information:
  - a. The word "Invoice" should appear in a prominent location at the top of the page(s);
  - b. Printed name of the Grantee;
  - c. Business address of the Grantee including P.O. Box, City, State, and Zip Code;
  - d. Name of the Region/Division of the Department of Fish and Game being billed;
  - e. The date of the invoice and the time period covered; i.e., the term "from" and "to";
  - f. The number of the Grant upon which the claim is based;
  - g. The invoice must be itemized using the categories and following the format of the budget in Exhibit B;
  - h. The total amount due. This should be in a prominent location in the lower right-hand portion of the last page and clearly distinguished from other figures or computations appearing on the invoice. The total amount due shall include all costs incurred by the Grantee under the terms of this grant;
  - i. The original signature of the Grantee (not required of established firms or entities using preprinted letterhead invoices); and
  - j. The Grantee must provide supporting documentation for the invoice and actual receipts upon request of the Grant Manager.
15. Grantee agrees that all travel and per diem paid its employees under this Grant shall be at rates not to exceed those amounts paid to the State's represented employees under collective bargaining agreements currently in effect.
16. Each invoice for payment must be accompanied by a written description, not to exceed two pages in length, of the Grantee's performance under this grant since the time the previous such report was prepared. The report shall describe the types of activities and specific accomplishments during the period for which the payment is being made rather than merely listing the number of hours worked during the reporting period. The final invoice must include a budget summary of cost share expenditures by fund source.
17. Grantor shall withhold ten percent (10%) from each and every payment pending fulfillment of the Grantee's obligations herein. Upon completion of the Grantee's obligations, the Grantee must invoice for the payment retention.
18. Any disputes concerning the project or the Grant shall be resolved by the Project Managers of the Grantor and Grantee. In the event the dispute cannot be resolved by the Project Managers, the dispute shall be referred to the Director of the Department of Fish and Game, whose decision will be final.
19. The Grantee shall maintain complete and accurate records of its actual project costs and shall retain said records throughout the term of the Grant and for a period of three (3) years after receipt of final payment. During such time, said records shall be made available to the State of California, or their designated representative, for audit purposes during normal business hours. Expenditures not documented, and expenditures not allowed under the Grant or otherwise authorized by the Grantor shall be borne by the Grantee. The audit shall be confined to those matters connected with the Grant, including but not limited to, the administration and overhead costs.
20. All subcontracts will be made in a manner to provide, to the maximum extent practicable, open and free competition. In order to ensure objective subcontract performance and eliminate unfair competitive advantage, subcontractors that develop or draft work requirements, statements of work, or requests for proposals shall be excluded from competing for such subcontracts.

21. If a subcontractor is used, then a written copy of the sub agreement must be submitted to the Grant Manager, prior to the commencement of work by the subcontractor. The subcontract must include specific language which establishes the rights of the auditors of the State to examine the records of the subcontractor relative to the services and materials provided under the grant.
22. The Grantee and any subcontractors shall permit the Grantor to review and inspect project activities at all reasonable times during the performance period of this Grant, including review and inspection on a daily basis.
23. The project specifications subject to this Grant may only be amended in writing by mutual agreement of the Grantor and Grantee. If any change in the terms and conditions become necessary, a written request shall be made to the Grant Manager at least 115 days prior to the termination date.
24. The Grantor may terminate the Grant upon giving thirty (30) days written notice to the Grantee. In case of early termination, a final payment will be made to the Grantee upon receipt of an invoice covering costs incurred up to notice of termination, based on the portion of work completed.
25. Under Fish and Game Code section 1501.5 and Public Resources Code section 6217.1, DFG is authorized to collect information from grantees in order to process, track and ensure completion of grant projects. A Grantee's name and address may be provided to the public if requested. Other personal information submitted on this grant may be released to governmental entities involved with the funding of the project, for law enforcement purposes, pursuant to court order, or for official natural resources management purposes.

A Grantee may obtain a copy of his/her Grant file maintained by the Grantor by submitting a written request to the Department of Fish and Game, Fisheries Restoration Grant Program, Native Anadromous Fish and Watershed Restoration Branch, 830 S Street, Sacramento, CA 95814. All requests must include the requestor's name, address, and telephone number.

26. The Grantee shall comply with all applicable state laws, rules, regulations and local ordinances specifically including but not limited to environmental, procurement and safety laws, rules, regulations and ordinances. As may be necessary, the Grantee shall be responsible for obtaining the services of appropriately licensed professionals to comply with the applicable requirements of the Business and Professions Code including but not limited to section 6700 et seq. (Professional Engineers Act) and/or section 7800 et seq. (Geologists and Geophysicists Act).

If the Grantee fails to perform in accordance with the provisions of this Agreement, the Grantor retains the right, at its sole discretion, to delay, interrupt or suspend the work for which the grant monies are supplied.

27. **If an amendment becomes necessary, a written request shall be made to the Grant Manager at least 90 days prior to the grant ending date.**

**EXHIBIT A**  
**GOVERNADOR DEBRIS BASIN MODIFICATION PROJECT**  
**SCOPE OF WORK**

Under direction of the Department of Fish and Game, and under the following conditions and terms, the Grantee shall:

1. The Santa Barbara County Water Resources Division (SBCWRD) shall modify the Gobernador Debris Basin located on Gobernador Creek, Santa Barbara County. The primary goal of the project is to modify the debris basin dam to include an open channel that emulates the natural channel conditions of Carpinteria Creek. This will provide adult and juvenile steelhead passage to the 5.6 miles of habitat upstream of this barrier for endangered Southern steelhead. Since Gobernador Debris Basin is the most upstream barrier on this creek, and all downstream barriers are being addressed, this project will completely open the way to the high quality spawning and rearing habitat above the debris basin to fish. In addition, the project will improve the geomorphic function and stability of Gobernador Creek downstream by allowing the debris basin to pass sediment, sand, and gravel while maintaining its intended function of capturing larger debris.
2. Gobernador Creek is a tributary to Carpinteria Creek. The project location is approximately 4 miles upstream of the Pacific Ocean in the Carpinteria foothills and 1.5 miles upstream of the confluence with Carpinteria Creek. The project is located in Township 4N, Range 25W, Section 23, 34.40741 latitude, 119.46274 longitude of the White Ledge Peak 7.5 Minute U.S.G.S. Quadrangle as depicted in Attachment 1, Project Location Map, which is attached and made part of this agreement by this reference.
3. The specific project will be based on the final WRECO design dated June 30, 2008, which was submitted to the Department by the SBCWRD. The project will create a U-shaped channel through the debris basin embankment. This will consist of removal of the dam embankment and low flow pipe and constructing an open channel with grouted rock slopes downstream of concrete restrictor walls. The purpose of the concrete restrictor walls is to maintain the intended debris basin function of capturing large debris. The project will ensure that velocities appropriate for fish are achieved and that hydraulic and geomorphic stability are maintained so that the substrate can be preserved throughout the channel to provide appropriate channel roughness. In addition, placement of large boulders downstream of the outlet will provide grade control and potential resting pools. The slope will be adjusted to the overall stream profile during the final design to account for other barrier removal/modification projects that will occur downstream.
4. Design engineered plans for the basin modification are to be submitted to the Grant Manager prior to project commencement. The plans will include details of construction, scaled drawings of the basin as well as specifics on water diversion and fish relocation if necessary.
5. Should any modifications to the approved design will be deemed necessary during the construction phase, the Grantee Project Manager will notify the Grantor's Project Manager immediately. No changes will be implemented without written approval by the Department's designated hydraulic engineer, and/or geologist.
6. Project Tasks:
  - a. Construction
    - i. Removal of current structures including:
      1. Portion of debris basin embankment
      2. Grouted rock riprap
      3. 4-foot diameter reinforced concrete pipe (4% slope)
      4. Inlet structure

5. Grouted rock apron
  - ii. Structure modification with:
    1. Grouted rock side slopes (2:1 slope)
    2. Boulder and concrete invert (approximately 5% slope)
    3. Concrete outlet control structure (restrictor walls)
  - iii. Additional construction
    1. Temporary culvert
    2. Steel gates for operational modifications to allow for adjustment in restrictor wall open width
    3. Access road
    4. HDPE siding to protect concrete outlet control structure
7. The project will follow the National Marine Fisheries Service (NMFS 2001) Guidelines for Salmonid Passage at Stream Crossings and DFG criteria for fish passage as described in the Third Edition, Volume II, Part IX, February 2003, of the *California Salmonid Stream Habitat Restoration Manual*. Culvert replacement or modification designs shall be visually reviewed and authorized by NOAA Fisheries (or CDFG) engineers prior to commencement of work.
8. Work in flowing streams is restricted to June 15 through October 31. Actual project start and end dates, within this timeframe, are at the discretion of the Department of Fish and Game. Planting of tree seedlings shall take place after December 1 or when sufficient rainfall has occurred to insure the best chance of survival of the seedlings. The standard for success is 80% survival of plantings or 80% ground cover for broadcast planting of seed, after a period of three years.
9. The Grantee shall notify the Grantor's Project Manager a minimum of five (5) working days before the project site is de-watered and the stream flow diverted. The notification shall provide a reasonable time for Department personnel to supervise the implementation of the water diversion plan and oversee the safe removal and relocation of salmonids and other fish life from the project area. If the project requires dewatering of the site, and the relocation of salmonids, the Grantee shall implement the following measures to minimize harm and mortality to listed salmonids:
  - Fish relocation and dewatering activities shall only occur between June 15 and October 31 of each year.
  - The Grantee shall minimize the amount of wetted stream channel dewatered at each individual project site to the fullest extent possible.
  - All electrofishing shall be performed by a qualified fisheries biologist and conducted according to the National Marine Fisheries Service, *Guidelines for Electrofishing Waters Containing Salmonids Listed Under the Endangered Species Act*, June 2000.
  - The Grantee shall provide fish relocation data to the Grantor's Project Manager on a form provided by the Department of Fish and Game.
  - Additional measures to minimize injury and mortality of salmonids during fish relocation and dewatering activities shall be implemented as described in Part IX, pages 52 and 53 of the *California Salmonid Stream Habitat Restoration Manual*.
10. **Deliverables:** 1) a complete set of as-builts for the finished project signed by the attending engineer; 2) a complete set of all requisite permits for the project including the environmental document used to address the California Environmental Quality Act; 3) SBCWRD will provide a copy of the monitoring protocols to ensure bed and slope stability downstream of the concrete outlet structure.
11. The Grantee shall maintain the new crossing, inspect the crossing in a timely manner and remove debris as necessary during the storm season.
12. Submit a progress report to the Grantor's Project Manager at least once every three months. In addition, if work has been done under the contract during the three-month period, submit an invoice and a record of in-kind funds or services provided during the invoice period.
13. The project will be started in July 2008 and should be completed in January 2009. The resulting

reports and final invoices will be delivered to the Grantor's Project Manager no later than February 28, 2010.

**14. If an amendment becomes necessary, a written request shall be made to the Grantor's Project Manager at least 90 days prior to the grant ending date.**

15. Upon completion of the project, the Grantee shall submit two hard copies of a final written contract report and one electronic, *Microsoft Word* compatible, copy on 3.5 inch floppy disk(s) or CD. If the project is not completed in the current year, the Grantee shall submit a summary of the completed portion no later than December 31 and again each year until completed. The report shall include, but not necessarily be limited to the following information: (1) Grant number, (2) project name; (3) geographic area (e.g., watershed name); (4) location of work – show project location using U.S.G.S. 7.5 minute topographical map or appropriately scaled topographical map; (5) geospatial reference/location (lat/long is preferred – defined as point, line, or polygon); (6) project start and end dates; (7) total of each fund source, by line item, expended to complete the project, breaking down Grant dollars, by line item, and any other funding, including type of match (cash or in-kind service); (8) expected benefits to anadromous salmonids from the project; (9) labeled before and after photographs of any restoration activities and techniques; (10) specific project access using public and private roads and trails, with landowner name and address; (11) complete as-built project description; and (12) report measurable metrics for the project by responding to the restoration project metrics listed below.

**Habitat Protection and Restoration Projects– Reporting Metrics (HB)** (Report N/A to those that do not apply)

Habitat Projects: (all)

- Identify the watershed/sub-basin plan or assessment in which the project is identified as a priority.
- Name the priority habitat limiting factors identified in that plan that are addressed by the project
- Type of monitoring included in the project
  - Design spec achieved
  - Fish movement/abundance
- Number of stream miles treated/affected by the project within the project boundaries.

Fish Passage Improvement Projects (HB):

- Number of blockages removed or made passable.
- Number of miles made accessible to salmonids.

16. The Grantee shall acknowledge the participation of the Department of Fish and Game, Fishery Restoration Grant Program funds on any signs, flyers, or other types of written communication or notice to advertise or explain the Gobernador Debris Modification Project.

MISSION CREEK FISH PASSAGE PROJECT AT HIGHWAY 192 BRIDGE  
ESTIMATED BUDGET**

The Grantee will provide up to \$788,090.00 in funds or in-kind services as cost share to complete tasks described in paragraphs 1-14 of Exhibit A, Scope of Work, and in Table 1 below. The Grantor will provide an amount not to exceed \$988,900.00 as shown below in this Estimated Budget. Accurate records of in-kind funds or services will be provided to the Grantor with the final invoice.

<u>PERSONAL SERVICES</u>	<u>TOTAL</u>
In-kind	*
 <u>OPERATING EXPENSES</u>	
<u>Materials and Supplies</u>	
Structure concrete raft foundation (157 CY @ \$1,100/CY)	\$172,700.00
Structure concrete retaining walls & wing walls (45 CY @ \$1,210/CY)	\$54,450.00
Structure concrete for resister & buttress walls (2.6033 CY @ \$1,210/CY)	\$3,150.00
Structure concrete for debris wall (9 CY @ \$1,210/CY)	\$10,890.00
Bar reinforcing raft foundation (.6363 tons @ \$2,750/ton)	\$1,750.00
Bar reinforcing retaining & wing walls (6 tons @ \$2,200/ton)	\$13,200.00
Bar reinforcing for resistor & buttress wall (6 tons @ \$2,200/ton)	\$13,200.00
Bar reinforcing debris walls (.1381 tons @ \$2,200/ton)	\$304.00
Structural backfill (764 CY @ \$110/CY)	\$84,040.00
Perforated plastic pipe (110 LF @ \$44/LF)	\$4,840.00
Rock slope protection fabric (8,160 SF @ \$0.39/SF)	\$3,182.00
Rocks 3-in. to 4-in. size w/grout (10 tons @ \$330/ton)	\$3,300.00
Rocks 2-ton size (200 CY @ \$88/CY)	\$17,600.00
Plastic pipe with 6-inch diameter (120 LF @ \$55/LF)	\$6,600.00
Rock slope protection 1/2-T to 4-T rocks (560 CY @ \$126.50/CY)	\$70,840.00
Rock slope protection 1/4-T rocks (450 CY @ \$99/CY)	\$44,550.00
Backing rock No. 2 grouted (170 CY @ \$99/CY)	\$16,830.00
Concrete for rock slope protection (230 CY @ \$236.50/CY)	\$54,395.00
Install steel gates (50 SF @ \$110/SF)	\$5,500.00
Furnish and install stainless steel A325 1 1/4-in. dia. bolts, nuts & nuts and washers (16 ea. @ \$550/ea.)	\$8,800.00
Furnish and install stainless steel sleeves (.3434 ea. @ \$990/ea.)	\$340.00
Furnish and install HDPE (duramat) (1,700 SF @ \$57.20/SF)	\$97,240.00
Access road (lump sum)	\$11,000.00
Remove existing dam and culvert (lump sum)	\$88,000.00
Cable railing including posts (removable type) (35 LF @ \$44/LF)	\$1,540.00
Contract administration (15% of construction contract), includes construction staking, inspection, and materials testing costs	\$200,749.00
<b>TOTAL OPERATING EXPENSES</b>	<b>\$988,990.00</b>
Subtotal	\$988,990.00
ADMINISTRATIVE OVERHEAD @ 0%	\$0.00
<b>TOTAL ESTIMATED BUDGET</b>	<b><u>\$988,990.00</u></b>

\* All associated Personal Services Costs provided for by Grantee in-kind funds or services.

Table of Funding Sources and Cost Share

<b>SOURCE OF FUNDS</b>	<b>CASH</b>	<b>IN-KIND (If Applicable)</b>	<b>TOTAL</b>
<b>Fisheries Restoration Grant Program</b>	\$988,900		\$988,900
<b>Other State Agency(ies)</b> State Coastal Conservancy	\$88,000		\$88,000
<b>Federal</b>			
<b>Applicant – Santa Barbara County Water Resources Division</b>	\$700,090		\$700,090
<b>Other(s) including partners (if applicable, state name)</b>			
<b>Total Project Cost</b>	\$1,776,990		\$1,777,990

Note: Any changes or modifications to a fund source indicated above must be promptly reported to the Grant Manager. Projects with undisclosed fund sources may be subject to an audit.
