My name is Jessica White,

The injury rate from this vaccine is unprecedented in history. According to the CDC's own data, deaths and injuries from all vaccines put together over the past 31 years is equivalent to what has happened with this vaccine since January!

The vaccine is failing. It was designed for a certain strain of corona virus, but that strain is no longer circulating.

The delta variant is now virtually 100% of the occurrence of corona virus in our country and what we're seeing is vaccinated and unvaccinated equally susceptible to the delta variant and that they are equally likely to transmit, so the vaccine is now obsolete!

The latest studies out of Israel clearly demonstrate the Pfizer Vaccine is now only 17% effective against the Delta Variant. This is following another recent study out of John Hopkins that says that the Pfizer vax was only 42% effective. Any vaccine with less than 50% efficacy is usually considered a failure and should not be on the market.

On Aug. 5, Dr. Kobi Haviv, medical director of Herzog Hospital in Jerusalem, said in an interview, "95% of the severe patients are vaccinated." Furthermore, "85-90% of the hospitalizations are in fully

vaccinated people” and the hospital is “opening more and more COVID wards.”

Just today, in an article out of the Jerusalem Post, I am quoting, “Israel registered close to 11,000 covid 19 cases on Monday, the Health Ministry reported Tuesday, marking a new record since the start of the pandemic.” One of the most vaxxed countries, and over 2 million of their citizens already have their 3rd jab.

A groundbreaking paper by the prestigious Oxford University Clinical Research Group, published Aug. 10 in The Lancet, includes alarming findings related to the vaccine rollout. It found vaccinated individuals carry 251 times the load of COVID-19 viruses in their nostrils compared to the unvaccinated.

While it mitigates the symptoms of infection, the jab allows vaccinated individuals to carry unusually high viral loads without becoming ill at first, transforming them into pre-symptomatic superspreaders.

The paper’s authors are Chau et al, u can look it up!

According to Vaers, Vaccine Adverse Event Reporting System co-managed by the CDC & FDA.

There are 623,341 Reports through August 20, 2021

13,627 deaths

55,821 hospitalizations

74,368 urgent care

100,966 office visits

5,721 reports of anaphylaxis

4,785 bells palsy

1,671 Miscarriages

6,071 Heart Attacks

5,093 Myocarditis/Pericarditis

17,794 Permanently Disabled

2,831 Thrombocytopenia/Low Platelet

14,105 Life Threatening

25,921 Severe Allergic Reaction

7,324 Shingles

According to Harvard, these figures represent less than 1% of the actual numbers. The swine flu vaccine was stopped after 50 deaths. In Australia, more people have died from the covid vaccine than have from corona virus!

Please ask yourselves, why is what I have shared with you not in the public's or your awareness? Why is it not in mainstream media?

Why have doctors and scientists who have questioned the narrative been censored and fact checked as spreading misinformation? **Why have** attempts been made to destroy their careers and **why are they** receiving death threats? Why are successful, treatments such as Ivermectin, hydroxychloroquine and budesonide not being made available as early treatments for patients?

Quoting Dr. Robert Malone, inventor of the mRNA technology, who is also one of those scientists experiencing the widespread censorship that is occurring, “ You ask what my colleagues and my reaction has been through all of this? One of our reactions has been, I’ve never seen anything like this, in terms of the propaganda and information and messaging control globally! Never seen anything like this in my life, during an infectious outbreak!”

Millions of people have died because of this!

This is My own life experience with covid vaccines:

My ex- husband is seriously injured , he is now severely immune compromised
My nephew was hospitalized and nearly died, **& has** serious remaining complications

My niece’s 40 year old healthy teacher, died the day after her first vaccine
A very dear friend, died suddenly from a pulmonary embolism several weeks after **the** vaccine

My sister’s client died from asthma after vaccine—she had no previous history of asthma

I’m asking you to please vote against this mandate!

Thank you for your time!

Ramirez, Angelica

Robert W Malone, MD @RWM... · 49m ...

More on Israel cases. Not really consistent with the story line pushed by legacy media in USA. Not a pandemic of the unvaccinated in Israel.

ISRAEL CONFIRMED CASES, JULY 4 TO JULY 31

Age Group	Cases Fully Vaccinated	Cases Unvaccinated	Percent of Cases Fully Vaccinated	Percentage of Population Fully Vaccinated
20-29	2689	795	77.2%	71.9%
30-39	3176	881	78.3%	77.4%
40-49	3303	635	83.9%	80.9%
50-59	2200	359	86.0%	84.4%
60-69	2200	187	92.2%	86.9%
70-79	1384	100	93.3%	92.8%
80-89	540	61	89.9%	91.2%
90+	142	20	87.7%	89.7%
TOTAL	TOTAL	TOTAL	AVERAGE	AVERAGE
20-90+	15634	3038	86.0%	84.4%

Dear Chair Nelson,

I wanted to thank you very much for your honest and thoughtful assessment of what you heard from everyone who spoke last Tuesday. Your efforts were greatly appreciated and will not be forgotten- ever. I hope you will feel resolved in your conscience for your upstanding commitment towards the greater good of all. Currently it is clear most people are not aware. I hope you will continue to follow your heart with unshakable determination. I believe with time, our efforts will not be in vain.

May you and your family be blessed and protected. Take Zinc, vitamin D, Vitamin C daily to keep your immune system strong. Get Ivermectin to have on hand, in case anyone in your family gets Covid. As of recent, now that people are becoming aware of its benefits, certain entities are advising against it. More silencing. Please feel free to reach out if you need anything or have questions.

With gratitude and great respect,

Francesca Hunter
